During last century we earned name in the World through IITs. Our IITs were acknowledged & accepted by the World as good as Institute. We are proud of it but during this century we need ITI. If IIT had earned name and fame during last century, our small units of ITIs are there to earn name &fame in the world during this century. We want to go ahead with this dream."

Prime Minister Shri Narendra Modi

Preface

he "Training Manual for Industrial Training Institutes" published by erstwhile Directorate General of Employment and Training, is a comprehensive guide for all relevant information pertaining to Craftsmen Training Scheme being implemented in Industrial Training Institutes (ITIs) all over the country. This Training Manual has been divided in two parts. Part-I was published in year 2014, contains information on the Organisational Structure, Administration in ITI, manpower requirement and Trade Test Procedure. Part-II containing affiliation norms and procedure of this Manual could not be published during

that point of time as affiliation norms for ITIs were under revision.

Meanwhile, Government has formed Ministry of Skill Development and Entrepreneurship (MSDE), to give attention to skill development in a bigger way. The Ministry is responsible for co-ordination of all skill development efforts across the country, removal of disconnect between demand and supply of skilled manpower, building the vocational and technical training framework, skill up-gradation, building of new skills, and innovative thinking not only for existing jobs but also jobs that are to be created. The two verticals of erstwhile "Directorate General of Employment & Training" (DGE&T) working under Deputy Director General (Training) & Deputy Director General (Apprenticeship Training) were transferred to MSDE as Directorate General of Training. At national level, major roles of this Directorate General of Training (DGT) remains Policy formulation on Vocational Training, Laying down affiliation norms and procedure, Curriculum and Trade testing & Certification for ITIs.

To ensure that "ITI eco system" remains updated and relevant to industrial requirement, DGT has taken initiative to review the existing Civil and other infrastructural norms, essential facilities and affiliation/accreditation procedure for setting of ITIs. Various committees were constituted to draft new set of civil and procedural

norms for establishing ITIs, having different seating capacities both for rural and urban areas. The report of committees were discussed in meeting of stakeholders and based on their suggestions, these were further modified. However, before implementation of these norms, it was felt that, these norms shall also be vetted by Technical Advisory Committee consisting members of academic expertise from IIT/Technical University, H.R & Technical expert from Industry, and representative from state directorate. Accordingly, a committee was constituted. Committee held three meeting and deliberated on these new sets of norms. These norms, thus finalized, bears approval of competent authority.

The Ministry of Skill Development and Entrepreneurship, Government of India is pleased to announce the launch of new Procedural and Civil norms for establishment of ITIs across the country. While designing these norms, efforts have been made to standardize the Civil infrastructure of ITIs, so that ITIs across the country have similar buildings and facilities. Procedure for seeking affiliation has also been redefined to make it further simpler and transparent. Total Affiliation will be completed in 3 stage process-1st stage: Desktop Assessment, 2nd stage: Civil Infrastructure Assessment, 3rd stage: Equipment, power, IT lab and other Infrastructure Assessment.

An online mechanism has been established to enable the applicant Institutions. This detail out the various requirements for affiliation and accreditation as applicant proceeds for filling up the application form. It will also help in doing self-assessment by an Institute. The various requirements like infrastructure, tools and equipment, staff strength, power requirement etc. are detailed in application form. The applicant does need not to seek any information related to the NCVT requirement from any office. A guidance document for filling the application and sample manual is also enclosed to help the applicant's Institutes. The objective is to enable our Institution to reach an internationally acceptable level so that trainees are not accepted locally but also globally. It may however be clarified that this manual is not a legal document but is made only to serve the users for smooth implementation of norms prescribed by NCVT. For any clarification the original office order relating to the recommendations may be referred to..

We would welcome feedback and any suggestions for improvement.

Background

kill development of youth, has occupied Centre stage in development perspective of government of the day, for supporting its new development schemes like Smart Cities, Make in India, Digital India and Clean India. Apart from meeting its own demand, India has the potential to provide skilled workforce to

fill the expected shortfall in the ageing developed world.

Industrial Training Institutes have played a vital role in development and growth of Indian industries for the past 6 decades. A major workforce for industry have been trained by these institution across various sectors of economy. Industry will be able to grow and prosper only if the skilled youth coming out from various Industrial Training Institutes are able to meet the expectation of industry in terms of their skill acquisition. It is, therefore, very important for Industrial Training Institutes to impart the training in-sync with the demands of the industry.

To ensure that the competency of trained students of ITIs is at par with the international requirements, NCVT, DGT and QCI had joined hands to establish an accreditation mechanism in line with international benchmarks. This system was implemented during year 2012-2016, however, number of gaps were reported in structure of ITIs across the country. On analyzing these reports it was felt that these gaps are basically due to non-availability of standard infrastructure norms for ITIs having less than 200 seats, much variation was observed in building, approach road and other infrastructural facilities, amongst these ITIs. It was also observed that there was a need to review the affiliation/ accreditation procedure for setting of ITIs as per the present scenario to bring more clarity and transparency in affiliation system of ITIs.

Introduction

1.1 Craftsmen Training Scheme:

The Craftsmen Training Scheme was introduced by the Government of India in 1950 to ensure a steady flow of skilled workers in different trades for the domestic industry, to raise quantitatively and qualitatively the industrial production by systematic training, to reduce unemployment among the educated youth by providing them employable training, to cultivate and nurture a technical and industrial attitude in the minds of the younger generation.

Craftsmen Training Scheme implemented through ITIs is the oldest system of skill training in country. This scheme is the one of the major schemes in the field of vocational training, and has been shaping craftsmen to meet the existing as well as future manpower need of skill manpower in the industrial as well as service sector. The scheme is being implemented through the vast network of ITIs in the various states/union territories in the country. It is also viewed as backbone of technical and vocational training system of country. ITIs remain the major source of supply of skilled manpower for manufacturing industries for past six decades and have established credibility in market/ industries. Indian industries have never imported skilled manpower. On the contrary, graduates of ITIs are working proficiently in various other countries.

1.2. Industrial Training Institutes (ITIs):

Industrial Training Institutes (ITI) are training institutes which offer range of vocational/skill training courses covering a large number of economic sectors with an objective to provide skilled workforce to the industry as well as self-employment of youth. They provide post-school technical as well as vocational training courses leading to lifelong career in one or two year skill courses.

These institutes are set up under Directorate General of Training (DGT), Ministry of Skill Development and Entrepreneurship (MSDE), Government of India. Government Industrial Training Institutes are government-run training organizations. and Private Industrial Training Centers are privately run equivalents. These institutes are affiliated to National Council for Vocational Training(NCVT) and run training programme under Craftsmen Training Scheme.

At present there are total 13,105 ITIs (Govt.2293 + Private 10,812) with seating capacity- 18.65 lakh (Govt. 5.05 lakh + Private 13.60 lakh) Trades Covered -126 (popular trades are Electrician, Fitter, Machinist, Welder, Mechanic Motor Vehicle). Each trade has a dedicated course curriculum. These are also being aligned to NSQF

levels. (List of trades at table-i). Admissions in Government and Private ITIs are done in the month of August every year. The period of training: six months, one and two years. The training courses have been designed to impart basic skills and knowledge in the trades so as to prepare trainee for employment as a semi-skilled worker or for self-employment. Training programme is based on semester pattern.

For overall personality development of trainees, a course on "Employability Skill" is being taught.

National Trade Certificate (NTC) is awarded to successful trainees of NCVT affiliated trades of ITIs. NTC enjoys National/international recognition for purpose of employment/ self-employment.

1.3. Advantage of getting trained in ITI:

Industrial Training Institutes played a vital role in economic development of the country especially in terms of supplying skilled manpower to industries. Properly trained skilled manpower is the demand of the industry, which is being regularly supplied by hands-on skill training through ITIs.

Demand for skilled manpower in country would be forthcoming from newly launched schemes of Government namely Make in India, Digital India, Smart Cities and Clean India. ITIs are ready to take up the new task and would be playing important role for meeting the skilled manpower demand generated through these new schemes.

ITI graduates have following career options:

Jobs as skilled workers/technicians in private and public sector industries, SME and MSME Jobs in Government organizations like Indian Railway, Army, Navy, Air Force and also paramilitary forces like BSF, CRPF etc.

Self-employed: ITI qualified persons can set up their own garage, motor/ generator/transformer winding shops or fabrication shops depending upon trade opted. Trainers/master trainer role in ITIs/ATIs, after doing Crafts Instructor Training Programme of DGT. ITI trainees can go for higher studies like diploma in engineering, NTC holders are employed successfully for past six decades, in India and abroad, in Public sector companies, Railways, PWD and Electricity Department of Central and State Govt. NTC holders are also successful entrepreneurs.

Introduction of
Accreditation
and Affiliation
Processes for
Establishing ITIs

This handbook is provided to the various stakeholders for establishing Industrial Training Institutes (ITIs). The handbook contains the guidelines, related policy documents and processes for establishing ITIs.

1.1 General Information

ITIs have been designed to impart basic skills and knowledge in the designated trades so as to prepare trainees as semi-skilled/skilled workers for gainful employment as well as for self-employment.

Affiliation is a process of establishing competence of ITIs in delivering the requisite elements of vocational training with ability to carry out evaluation of competence acquired by the trainees.

The purpose of introducing accreditation program for ITIs is to uphold high standards of quality and expectation of the various stakeholders of the ITI system. Some of the salient objectives are:

- To ensure that institutions meet defined quality standards.
- To foster excellence in ITI, building effectiveness in delivering competency based education and training.
- To establish framework for continuous improvement and provide opportunity to benchmark with other institutions.
- To facilitate development of professional competency of the trainees
- To provide basis for determining eligibility for assistance and investment of public funds by regulatory/ affiliating agencies.

Affiliation is applicable to ITIs under following scenarios:

CAT 1 New Institutes seeking Affiliation for new trades/new units

CAT 2 Existing Institutes seeking Affiliation for new trades/new units

CAT 3 Change of Name/ Address

CAT 4 Change of Site location

CAT 5 Existing Institutes seeking De-Affiliation/ Surrender trades/ units

CAT 6 Renewal of Affiliation

The above conditions are applicable to both Government as well as Private ITIs.

1.2 Eligibility

- 1. In order to be eligible to apply for opening an ITI, Organizations should be either of the following:
 - i) Societies or Trusts
 - ii) Private/Public Limited Companies
 - iii) Companies like Sole Proprietary
 - iv) Private Institutions/ Individual(s)
 - v) Central or State Government/ UT Administered or by a Society or a Trust registered by them

1.3 Concurrent Monitoring

DGT/ NCVT shall have the right to perform concurrent monitoring checks to evaluate the performance of the ITIs.

1.4 Forensic Audit

5% of accreditation reports submitted by the State Directorate shall be inspected by DGT. DGT may involve IIT/ NIT located within the state or nearby as Academic Technical Evaluation Advisor (ATEA) of DGT for this purpose. NCVT will have a right to take appropriate decision to override recommendations of the State Directorate for Affiliation/De-Affiliation of ITIs after considering the merits and demerits on a case basis.

1.5 Accreditation Process

DGT will develop a separate portal for receiving applications online. State Directorates having their portals will be interlinked with the DGT portal for further processing of applications. States which do not have their own portal can use the DGT portal, for which they will be assigned login ids.

State Directorate will intimate their requirement of new ITIs to DGT every year. Based on requirements, DGT will give advertisement for inviting online applications at least one year in advance for the session being sought; applicant shall submit the application in DGT portal. It should be noted that applications to be submitted at least one year prior to the year for which the session is being sought.

The applications will be processed on a first come first serve basis. Audit trail shall be available for verifying date and time of application submitted by applicants.

Applicant shall pay the online fee for processing of application and site visits through payment gateway available on DGT and State Directorate web portal. Accreditation process shall include the following stages:

Stage I- Desktop Assessment: Directorate General of Training will scrutinize the applications submitted online to ensure credentials of applicants like Institute details, Organization details, Authorized persons' details, Trade/ Unit details, Location details, Category of application, NOC from State Directorate etc. State Directorate would review the applications from the point of view of requirement of an ITI at the proposed location as well as requirement of Trades/Units as proposed by the applicant. They will submit their NOC accordingly. At the completion of stage I, DGT will issue a Letter of Intent (LoI) to the applicant for proceeding to the next stage.

Stage II- Civil Infrastructure Assessment: After completion of civil infrastructure, the applicant will upload the relevant details on the web portal. The first site visit date will be selected by the applicant at the time of payment of site visit fee. Accordingly, State Directorate will undertake the physical verification of land and civil infrastructure as per the latest NCVT norms (refer civil manual) and according to the uploaded details. After the successful completion of stage II, State Directorate will issue a LoI to the applicant for proceeding to IIIrd stage.

Stage III- Equipment Assessment: The applicants will upload details of equipment, machinery, tools, IT lab, furniture and

sanctioned power etc. on the web portal and select second site visit date at the time of payment of site visit fee. Accordingly, State Directorate will ensure physical verification of equipment, machinery, tools, IT lab, furniture and sanctioned power etc. as per the latest NCVT norms and as per uploaded details.

State Directorate shall submit the accreditation report to DGT Headquarters (HQ) for grant of affiliation by NCVT to consider the case. The accreditation report shall comprise of geotagged, time-stamped photos, ideography of the site visits, all approved documents and affidavits as per formats mentioned in detailed procedural norms, duly endorsed by Principal Secretary of State Government department who is looking after the Craftsman Training Scheme (CTS).

Applicants shall upload staff details after completing the accreditation process and before grant of affiliation.

Different stages involved in the process have been presented in a flowchart in this document for better understanding. The procedure for different stages has also been described in detail in this document.

Annexure - 1 contains fee details involved in the process in different stages. Annexure -2 is the application format. Annexure -2A to 2G contains the details of the information/ norms/ guidelines to be referred to fill the application. Annexure - 3 to Annexure - 8 are the formats for assessment and verification at different stages.

Disclaimer:

- ITI shall comply with all the latest NCVT norms. In case of any violation, appropriate action shall be initiated.
- ii. Apart from affiliation norms of NCVT, ITIs shall follow all existing statutes/ provisions (related to ITIs) in that particular State/ UT. The ITIs shall also adhere to the latest notifications/ orders/ policies of Central Government/ State Government.
- iii. Where local building bye-laws are not available, National Building Code(NBC) of India shall be applicable.
- iv. The norms prescribed in this manual are only illustrative in nature; it has to be ensured that all safety norms shall be adhered to. It has to be ensured that overall aesthetic sense of the building/ plot is maintained.
- The civil structures shall be environment friendly and suitable for differently abled individuals. Ramp to be provided at main entrance and other places, wherever necessary.

Advertisement for Applications

Submit online application to SD through

Accreditation and Affiliation Process for Establishing ITIs

Stage I-

Expression of Interest

2.1 Advertisement for Inviting Applications

| SNo. | Processes | Actor/ Responsibility | Timelines | Relevant Documents |
|-------|---|-----------------------|-----------------------|-----------------------|
| 2.1.1 | Publish the advertisement with cut-off dates State Directorate will intimate their requirement of new ITIs to DGT every year. | State/UT | As per requirement | Format- 1 |

2.2 Submission of Application

| SNo. | Processes | Actor/ Responsibility | Timelines | Relevant Documents |
|-------|---|-----------------------|-----------------------|--------------------------------------|
| 2.2.1 | Submit the application through web portal Pay application processing fee to State/UT All the State Directorates shall use the DGT portal for further processing of applications, for which they will be assigned with separate login ids. Share the login id and password to the applicant on the registered email id. | Applicant | As per requirement | Annexure- 2 and 2A Annexure- 1 |

Instructions for 2.2.1

- The institution shall follow the prescribed norms as per Annexure- 2A to 2G.
- ii. ITIs can be opened with minimum 2 trades and maximum of 2 units per shift per trade. ITIs with 3 and above star ratings on NCVT portal would be appreciated to add more units after two years/ one year depending upon duration of trade.
- iii. Once the application details are submitted, the applicant will not be allowed to change the details.
- Applicant shall mention the location details i.e. name of district and revenue village.
- v. **Name of ITI:** The name of an ITI shall follow the following pattern:
 - a. "XXXX (Name of Institute)- Government/ Private
 Industrial Training Institute- XXXX (Name of District)"
 - b. Name of the institute will be checked for its uniqueness. An applicant applying for a new ITI through online application portal will have a system to check and filter the "Name of proposed ITI" with the ITIs already existing with the same name in that state. System shall reject ITI with same name in a state and prompt applicant to change name. If any already existing organization which is running ITIs applies for a new

- ITI, they can retain the name for a new ITI. The applicant shall submit supporting document for the same.
- c. Acronyms and abbreviations are not allowed. It should be noted that applicants shall not use their ITI name (in any form or common language parlance) in an abbreviated form resembling IIM/ IIT/ IISC/ NIT/ IISER/ IIIT/ IIEST/ AICTE/ UGC/ MHRD/ GOI. The applicant shall also not use the word(s) Government, India, Indian, National, All India, All India Council, Commission and other names as prohibited under the Emblems and Names (Prevention of Improper Use Act, 1950)anywhere in the name of the ITI. These restrictions shall not be applicable, in the case of Government ITIs.
- d. Name of Institute shall not be changed without prior approval of NCVT. NCVT may permit the change of name as per laid down procedures as given in this handbook.
- vi. The date of submission of application form will be the date and time when the payment is made after the submission of application on portal.

Note: Similar accreditation procedure is applicable in case of addition of new trades/units in existing institutes.

2.3 Initial Scrutiny

| SNo. | Processes | Actor/ Responsibility | Timelines | Relevant Documents |
|-------|--|-----------------------|--|---------------------------|
| 2.3.1 | Scrutiny of the application(s) Reject the applicants who have been de-barred/black-listed by DGT/ NCVT/ State/ Litigation Assess adequacy and completeness of the documents, Revenue Location of ITI etc. Assess compliance with the NCVT affiliation norms NOC from State Directorate Give appropriate reasons in case of rejection of the application Raise NCs, if any, to the applicant through web portal | State/UT | 15 calendar days after receipt of application processing fee | Annexure- 3 Annexure- 2A |
| | | | | |
| 2.3.2 | Clear all NCs, in case NCs were raised | Applicant | 15 calendar days | |
| 2.3.3 | In case of applications where NCs were raised, verify the updated information as per process 2.3.1 | State/UT | 10 calendar days after receipt | |
| 2.3.4 | Applications which conform to all the requirements to be processed further Applications which do not conform to the requirements to be rejected. The grounds for rejection shall be duly communicated to the concerned applicant and status to be updated on portal | State/UT | of application processing fee/ clearing NCs, if any | |

Note: Maximum days of timeline 50 calendar days (Ideal timeline 35 calendar days)

Instructions for 2.3.2:

I. In case of non-submission of clarification by applicant about NCs raised within the timelines, the application shall be deemed rejected.

2.4 Issue of Letter of Intent (LoI) for Stage II

| SNo. | Processes | Actor/ Responsibility | Timelines | Relevant Documents |
|-------|--|-----------------------|--|-----------------------|
| 2.4.1 | Based on the recommendations, issue a Letter of Intent (LoI) to the applicant through web portal | State/UT | 10 calendar days after receipt of application processing fee/ clearing Ncs, if any | Format-6 |

Note: Maximum days of timeline 10 calendar days

Instructions for 2.4.1:

- I. The applicant(s) have to apply for Stage II within 1 year of issue of LoI for Stage II. In case of non-submission within one year, this timeline may be extended by another year, provided the approved building plan is submitted within one year from issuance of LoI. Provided it is in compliance to the prevailing bye-laws and NCVT norms in the extended year.
- ii. The receipt of Letter of Intent for Stage II does not guarantee the accreditation of the institute.

Stage II-

Civil Phase

2.5 Updating Application (Civil Infrastructure)

| SNo. | Processes | Actor/ Responsibility | Timelines | Relevant Documents |
|-------|---|-----------------------|---|---------------------------------------|
| 2.5.1 | Applicant shall upload documents on web portal like Approved Building Plan, Documents showing ownership of Plot and Building or Registered lease Deed, Resolution by the applicant as mentioned in Annexure -2 as per latest NCVT norms | Applicant | Within 60 calendar days after receipt Lol | |
| 2.5.2 | Scrutinize the uploaded documents as per NCVT norms. Raise NCs, if any, to the applicant through web portal. | State Directorate | 20 calendar days | |
| 2.5.3 | Update the application with civil infrastructure details and submit the relevant documents as per NCVT norms | Applicant | Within 1 year of issue of LoI | Annexure- 2 Annexure- 2A and 2B |

Instructions for 2.5.1 & 2.5.3:

- I. The applicant has to apply for Stage II within 1 year of issue of LoI for Stage II. In case of non-submission within 1 year, this timeline may be extended by another year, provided the approved building plan is submitted within 1 year from issuance of LoI. Provided it is in compliance to the prevailing bye-laws and NCVT norms in the extended year.
- ii. In case of non- updation of civil infrastructure details by applicant within the timelines, the application shall be deemed rejected.
- iii. All the institutes registered shall be "geo-tagged" in order to ensure the uniqueness of the ITIs.

2.6 Desktop Assessment for Stage II

| Sno. | Processes | Actor/ Responsibility | Timelines | Relevant Documents |
|-------|---|-----------------------|---|---|
| 2.6.1 | Scrutinize the application Assess adequacy and completeness of the documents submitted by the applicant Check the dimensions of the classrooms, workshops, IT labs, administrative area, amenities areas etc. with respect to approved building plan Assess compliance with the NCVT affiliation norms Raise NCs, if any, to the applicant through web portal | State Directorate | Within 20 calendar days from application submission | Annexure- 4 Annexure-2A Annexure- 2B |
| 2.6.2 | Clear NCs, in case NCs were raised | Applicant | Within 15 calendar days of NCs raised | |

| 2.6.3 | In case of applications where NCs are raised, verify updated information as per process 2.6.1 Applications which conform to all the requirements to be processed further. | State Directorate | Within 10 calendar days from application submission/ clearing NCs by | - |
|-------|--|-------------------|--|---|
| | Applications which do not conform to the requirements may be rejected. The grounds for rejection shall be duly communicated to the concerned applicant. The status of all the applications rejected | | applicant, if any | |
| | shall be updated in the portal | | | |

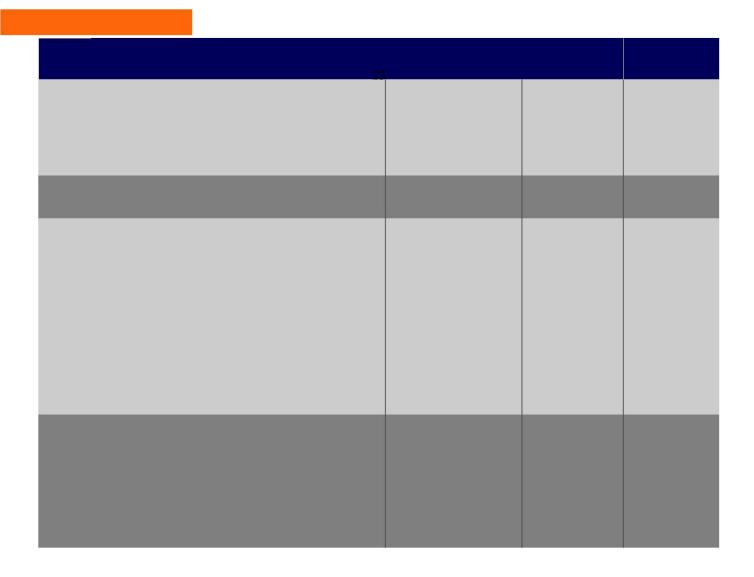

Note: Maximum days of timeline 45 calendar days (Ideal timelines 20 days).

Instructions for 2.6.2:

i. In case of non-submission of clarification about NCs raised within the timelines, the application shall be deemed rejected.

Instructions for 2.6.1 and 2.6.3:

I. State Directorate shall be responsible, in case of litigations raised due to extending of timelines by State Directorate.

Note: The declaration for staff shall be ticked mandatorily

1. Declaration

I/we hereby certify and agree:

- I/We have carefully read and understood all criteria for accreditation of Industrial Training Institutes seeking NCVT affiliation. The conformity with requirements of the accreditation criteria has been verified by us at our end. We confirm that the information provided in support of this application is correct to the best of our knowledge and belief.
- $\ \square$ That I/ We will comply with all the latest NCVT norms and if any violation found, appropriate action shall be initiated
- That I/ We are aware that the norms prescribed in this manual are only illustrative in nature, it has to be ensured that all safety norms shall be adhered to. It has to be ensured that overall aesthetic sense of the building/ plot is impressive.
- That I/ We will regularly check DGT/ NCVT web portal and follow the instructions from time to time after submitting the application. I undertake that DGT/ NCVT will not be responsible for negligence on my/our part once any information is updated on the web portal and I fail to check the same.
- $\hfill\Box$ That the training imparted in the ITI will be as per latest syllabus and NCVT guidelines.
- Apart from affiliation norms of NCVT, ITIs shall follow all existing statutes/ provisions (related to ITIs) in that particular state. The ITIs shall also adhere to the latest notifications/ orders/ policies of Central Government/ State Government.
- $\hfill\Box$ That I/we have all tools and equipment required for the trades applied for, as per the norms.
- That we will recruit qualified staff/faculty required for the applied trade.
- □ That the building will be constructed as per local building bye-laws and wherever local building bye-laws are not available, then N.B.C. of India will be followed.
- □ Especially that civil structure will be suitable for differently abled individuals.
- That no other institution is being run in the same premises where the ITI is proposed to be established.
- If any information or document submitted by the applicant is false; DGT has a right to cancel my application without notice besides taking appropriate legal action against the applicant including blacklisting the applicant.
- Ifaccredited,wecommittointimateDGTimmediatelyofanychangesinthestatuswhereinformation regarding such changes, if not declared may affect the consideration for accreditation of the institute.
- I am aware that 'Application Fee/ the Site Visit Fee/ Revisit fee once paid is 'non-refundable'. In case of surrender of 'Application/Trades/ Units' by applicant after the payment of respective fee, the fee amount shall not be refunded to the applicant.
- I am aware that, mere submission of an application does not ensure 'Accreditation' of the ITI. The accreditation of ITI for a particular number of trade/ units will depend upon the infrastructural facilities available with the ITI as per NCVT/ DGT norms. Similarly, the accreditation of a particular number of trades/units would not imply 'Affiliation' of ITI for that many numbers of trades/ units by NCVT.

Note: The declarations shall be ticked mandatorily.

|-------|--|-----------------------------|------------------------------|
| 1. | Total plot area (Sq.m) | As mentioned in civil norms | |
| 2. | Possession of the Land | As mentioned in civil norms | Owned/ Registered Live Lease |
| 2.a | Date of commencement of lease. | | |
| 2.b | Date of expiry of lease | | |
| 2.c | Duration of registered Live Lease (in years) | As mentioned in civil norms | (Auto-calculate) |
| 3. | Documents showing ownership in the name of the applicant by the concerned authority of Government or any other documents issued by the concerned Competent Authority establishing the ownership and possession of the land in the name of the applicant. In case, the land documents are in vernacular language, notarized English translation of the documents shall be produced. | Mandatory | (Upload) |

^{*}Enter Latitude and Longitude details in Degree, Minute and Seconds. Values should be from 0-59 only

2. Building Details

a. General Details:

| S No. | Particulars | Norms | Availability |
|-------|--|--|-----------------|
| 1. | Building plan shall be approved by Town Planning Department/ District Magistrate (Collector)/ Development Authority/ Municipal Authority/ Any other Competent Authority as per State Government/ UT | Mandatory | (Upload) |
| 2. | Building Completion/ Occupancy Certificate as per Local Building bye-laws/ NBC of India duly approved by Municipal Authority/ District Magistrate (Collector) (Shall include certification for Land Use Conversion, Safety of lift wherever applicable) | Mandatory ,As mentioned in civil norms | (Upload) |
| 3. | Fire Safety Certificate, duly approved by Authority from Fire and Safety department of the concerned State Government/ UT | Mandatory | Yes/ No(Upload) |
| 4. | Is the building integrated? | As mentioned in civil norms | Yes/ No |
| 5. | Plot Entrance Gate | As mentioned in civil norms | |
| 6. | Building Entrance Gate | As mentioned in civil norms | |
| 7. | Open Spaces around the Building | As mentioned in civil norms | Yes/ No |
| 8. | Open Spaces Separate for each Building | As mentioned in civil norms | Yes/ No |
| 9. | Ceiling Height of Building | As mentioned in civil norms | Yes/ No |
| 10. | Photographs | Mandatory | (Upload) |

b. Instructional Area Details:

Classroom Details:

| S No. | Name of Trade | Space Norms (in sqm) | Actual Area available (in sqm) | Width (in m) | Floor Type | Upload Photographs |
|-------|---------------|-------------------------------|-----------------------------------|-----------------|---|-----------------------|
| 1. | | <pre-populate></pre-populate> | | | TiledAny other type finished floor | |

^{1.}The minimum size of the classroom shall be 25 Sqm. 2.The minimum width of the classroom shall be 3 m. 3.Floor shall be tiled/ higher specification.

Workshop Area Details:

| S No. | Name of Trade | Space Norms (in Sqm) | Actual Area Available (in Sqm) | Width (in m) | Workshop Height from Lower End (in ft) | Workshop Roof | Floor Type | Upload Photographs |
|-------|------------------|------------------------------------|--------------------------------------|-----------------|---|---|--|-----------------------|
| 1. | | <pre><pre>populate></pre></pre> | | | | <flat industrial="" pitched="" rcc="" roof="" sheet="" structural="" support.<="" td="" with=""><td>CementedTiledAny other type finished floor</td><td></td></flat> | CementedTiledAny other type finished floor | |

Note:

- 1. The minimum size norms for each trade for the workshop can be seen at Annexure- 2F
- 2. The minimum width of the workshop shall be 5 m
- 3. Tin roof sheets/Asbestos roof sheets for workshops are not allowed
- 4. Floor shall be tiled/ higher specification/cemented

IT Lab Details (other than COPA):

| S No. | Space Norms (in Sqm) | Actual Area Available (in Sqm) | Width (in m) | Floor Type | Upload Photographs |
|-------|-----------------------------|-----------------------------------|-----------------|---|--------------------|
| 1. | As mentioned in civil norms | | | TiledAny other type finished floor | |

Note:

- 1. The minimum size of the IT lab shall be 25 Sqm for 10 computers. An additional 2.5 Sqm shall be made available for each additional computer.
- 2. The minimum width of the lab shall be 3 m.
- 3. Floor shall be tiled/ higher specification.

Drawing Hall Details

(For Engineering Trade(s)(except Draughtsman (Civil)/ Draughtsman (Mechanical) trades):

| S No. | Space Norms (in sqm) | Actual Area Available (in Sqm) | Upload Photographs |
|-------|-----------------------------|--------------------------------|--------------------|
| 1. | As mentioned in civil norms | | |
| | | | |

c. Administrative Area Details:

| S No. | Details | Space Norms (in Sqm) | Actual Area AvailableWidth (in m) (in Sqm) |
|-------|------------------------------|-----------------------------|---|
| 1. | Reception cum Waiting Lobby | As mentioned in civil norms | |
| 2. | Principal Room | As mentioned in civil norms | |
| 3. | Staff Room | As mentioned in civil norms | |
| 4. | Administrative Hall/ Section | As mentioned in civil norms | |
| 5. | Placement/ Counselling room | As mentioned in civil norms | |

Note

1. The minimum width of the rooms shall be 3 m.

d. Amenities Area Details:

| S No. | Details | Space Norms (in Sqm) | Width (in m) | Actual area available (in Sqm) |
|-------|---|-----------------------------|--------------|-----------------------------------|
| 1. | Multipurpose Hall/ Courtyard | As mentioned in civil norms | | |
| 2. | Library & Reading Room | As mentioned in civil norms | | |
| 3. | Canteen (including kitchen & pantry) | As mentioned in civil norms | | |
| 4. | First-Aid Room | As mentioned in civil norms | | |
| 5. | Playground | As mentioned in civil norms | | |
| 6. | Drinking Water Facility | As mentioned in civil norms | | |
| 7. | Storage Room for raw material and for Gases/ Oil drums etc. | As mentioned in civil norms | | |

Note

- 1. The minimum width of the multipurpose hall/ courtyard shall be 5 m.
- 2. The minimum width of other rooms shall be 3 m.

| S No. | Details | Norms | Availability |
|-------|--|-----------------------------|--------------|
| 8. | Availability of staircase as per standards/ Local Building bye-laws or NBC of India | As mentioned in civil norms | Yes/ No |
| 9. | Availability of treated drinking water fountains as per standards | As mentioned in civil norms | Yes/ No |
| 10. | Toilets/ Water Closet details (As per Local Building bye-laws or NBC of India) | As mentioned in civil norms | |
| а | For Staff | As mentioned in civil norms | Yes/ No |
| | For Trainees | As mentioned in civil norms | Yes/ No |
| b | Parking Details(As per Local Building bye-laws or NBC of India) | As mentioned in civil norms | |
| 11 | Car Parking | As mentioned in civil norms | Yes/ No |
| | Scooter/ Two-wheeler | As mentioned in civil norms | Yes/ No |
| | Bicycle | As mentioned in civil norms | Yes/ No |
| | Ramps and Infrastructure necessary for disabled persons as per local bye-laws | | Yes/ No |

e. Finishing Details:

| S No. | Details | Norms | Availability |
|-------|---|-----------------------------|--------------|
| 1. | Plastering and painting of internal and external walls and ceiling | As mentioned in civil norms | Yes/ No |
| 2. | Painting/ lamination of door, window, ventilator, gate, grill, railing of the institute | As mentioned in civil norms | Yes/ No |

1. Declarations

| a. | Resolution to allocate resources (Format- 4) | Upload |
|----|--|--------|
| b. | Resolution regarding Electrical Connection (Format-5) | Upload |
| C. | Certificate- 1 issued by an advocate in a Format prescribed regarding authenticity and appropriateness of Trust/Society Registration Documents, Land Documents, Land Use Certificate and Land Conversion Certificate | Upload |

Stage III

MACHINERIES, EQUIPMENT, TOOLS AND POWER DETAILS

1. Machineries, Equipment and Tools

(Submit the information trade wise)

Name of trade:

a. Machineries

| S No. | Trade Name | Description of Machinery | | Qty. Required for Total No. of New Units | Qty. Required for Units already Affiliated (no.) (if applicable) | Qty. Required for Total Units (no.) (inclusive of units already affiliated) | Deficiency (if any) |
|-------|---------------|-----------------------------------|-----------------------------------|---|--|---|------------------------------------|
| 1. | | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- calculate></auto- |
| 2. | | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- calculate></auto- |

b. Equipment

| S No. | Trade Name | Description of Equipment | Qty. Required/ unit as per Norms (no.) | Qty. Required for Total No. of New Units | | Qty. Required for Total Units (no.) (inclusive of units already affiliated) | Deficiency (if any) |
|-------|---------------|-----------------------------------|---|---|-----------------------------------|---|------------------------------------|
| 1. | | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- calculate></auto- |
| 2. | | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- calculate></auto- |

c. Tools

| S No. | Trade Name | Description of Tools | Qty. Required/ Unit as per Norms (no.) | Qty. Required for Total no. of New Units. | Qty. Required for Units Already Affiliated (no.) (if applicable) | Qty. Required for Total Units (no.) (inclusive of units already affiliated) | Deficiency (if any) |
|-------|---------------|-----------------------------------|---|--|--|---|------------------------------------|
| 1. | | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- calculate></auto- |
| 2. | | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- populate></auto- | <auto- calculate></auto- |

d. Machineries, Equipment and Tools costing above Rs. 10,000

| S. No. | Name I of the Machi- nery, Equip- ment & Tools | Manufa- | Purchased From i.e. of Supplier Address Along with Tel. No. | oice no. | Invoice Date | Tin No | (upload) | Finaliz- ation | received note (upload) | Copy of Store's Inward Register (upload) | Certifi- | Photo- graph (uplo- ad) |
|-----------|--|---------|--|----------|-----------------|--------|----------|-------------------|------------------------------|--|----------|----------------------------------|
| 1. | <auto- popu- late></auto- | | | | | | | | | | | |
| 2. | <auto- popu- late></auto- | | | | | | | | | | | |

e. Machineries, Equipment and Tools costing below Rs 10,000

| S No. | Trade Name | Name of the Machinery, Equipment & Tools | Make | Purchased from i.e. Supplier Address Along with Tel. No. | Tax Invoice No. | Invoice Date | Tin No. | Tax Invoice (Upload) | Photograph (Upload) |
|-------|---------------|---|------|---|-----------------------|-----------------|---------|----------------------------|------------------------|
| - | | <auto-populate></auto-populate> | | | | | | | |
| | | <auto-populate></auto-populate> | | | | | | | |

f. Installation of Machineries, Equipment

- □ Machinery and equipment are installed as per supplier manual and ISO safety standards
- $\hfill\Box$ Machinery and equipment are connected as per electrical safety standards
- □ Machinery and equipment are connected as per Indian standard code of practicing for electrical wiring

Note:

- 1. The standard machinery, equipment and tools list available in the syllabus of each trade and as available on the website .
- 2. Only new machinery/equipment/ vehicle in running condition is acceptable for granting accreditation. No old machinery, equipment and tools are acceptable for any new trade/unit. All the tax invoices of machinery, equipment and tools shall not be older than six months from the date of application.
- 3. Vehicle registration certificate should be uploaded.
- 4. Vehicle registration should be in the name of the institute.
- 5. The items which are not included in the standard list but are essential for training due to technological development may be procured by the institute.

2. Classroom Furniture Details

| S No. | Trade Name | Room No. | Chair for Instructor | Table for Instructor | Chairs/ Desk for Trainees | Black/ White Board 4X6 Feet |
|-------|---------------|-------------------------------|----------------------|----------------------|------------------------------|--------------------------------|
| 1. | | <pre-populate></pre-populate> | <yes no=""></yes> | <yes no=""></yes> | <yes no=""></yes> | <yes no=""></yes> |
| 2. | | <pre-populate></pre-populate> | <yes no=""></yes> | <yes no=""></yes> | <yes no=""></yes> | <yes no=""></yes> |

Note:

- 1. Submit the information for each classroom
- 2. One chair and table for instructor shall be available
- One chair/ desk for each of the trainees sought affiliation in a shift, shall be available

3. IT Lab Details

| S No. | Details | Norms | Actual Qty. | Deficiency, if any |
|-------|---|---|-------------|--------------------|
| 1. | Desktop computer with latest configuration (only LCD or LED monitor to be allowed) | Minimum 10 nos. up to seating capacity of 100 trainees per shift For each additional 20 trainees: 2 computers Note: Minimum 24 computers required for 12 units. | | |
| 2. | Internet connection | Minimum 2 mbps connection | Yes/ No | |
| 3. | Computer with multimedia, anti-virus software, latest operating software (Licenced software) with UPS | Yes | Yes/ No | |
| 4. | LAN Cabling, LAN Switch | As Required | Yes/ No | |
| 5. | Printer (Inkjet, Laser) | As Required | Yes/ No | |
| 6. | Scanner | As Required | Yes/ No | |
| 7. | Server | As Required | Yes/ No | |
| 8. | External Hard Disk – 1TB | 1 no. | | |
| 9. | Instructor/ Office Chair | 1 no. | | |
| 10. | Instructor/ Office Table | 1 no. | | |
| 11. | Trainees/Computer Chairs | 20 nos. | | |
| 12. | Trainees/Computer Tables | 10 no. | | |
| 13. | Black/ White Board 4X6 Feet | 1 no. | | |

Note:

The requirement of IT lab is over and above the requirements of Trade. The institute does not need a separate IT lab, if the institute is running only COPA trade. If any other trade in addition to COPA is running in the institute, then a separate IT lab is mandatory.
 N-computing system is allowed with standby server and UPS. For every 10 computers, 1 Common CPU is required. Similarly, if N-computing system is used,

iii. N-computing system is allowed with standby server and UPS. For every 10 computers, 1 Common CPU is required. Similarly, if N-computing system is used, 1 no. of 5 KVA UPS is required for 10 computers and in case ITI is not having N-computing then each computer should have a separate CPU and common/separate UPS.
 iii. N-computing Server configuration prevalent at the time of procurement or with the following minimum features: CPU: 32/64 Bit Core 2 Duo/Quad Core/i3/i5, Speed:

iii. N-computing Server configuration prevalent at the time of procurement or with the following minimum features: CPU: 32/64 Bit Core 2 Duo/Quad Core/i3/i5, Speed: 3 GHz or Higher. Cache Memory: Minimum 3 MB or better. RAM:8 GB DDR-III or Higher. Hard Disk Drive: 500GB or Higher, 7200 rpm (minimum) or Higher, Wi-Fi Enabled. Network Card: Integrated Gigabit Ethernet (10/100/1000) - Wi-Fi, USB Mouse, USB Keyboard and Monitor (Min. 22 Inch), Standard ports and connectors. DVD Writer, Speakers and Mic. Licensed Windows Operating System/ OEM Pack (Preloaded), Antivirus/ Total Security.

v. Every computer should have multimedia, anti-virus software, latest licenced operating software with UPS

v. If dongles used, separate dongles for each PC shall be available

4. Drawing Hall Details (Common to all Engineering Trades(s)except Draughtsman (Civil)/ Draughtsman (Mechanical) Trades)

| S No. | Name of Tools/ Equipment | Norms | Actual Qty. | Deficiency, if any |
|-------|---|---------------------------------|-------------|--------------------|
| 1 | Drawing Board (Standard Size , Adjustable Type) | 20 no. for one unit arrangement | | |
| 2 | Models: Solid & cut section | as required | | |
| 3 | Table for Trainees | 20 no. | | |
| 4 | Stool for Trainees (Adjustable Type) | 20 no. | | |
| 5. | Cupboard (big) | 01 no. | | |
| 6 | White Board (size: 8ft. x 4ft.) | 01 no. | | |
| 7 | Trainer's Table | 01 no. | | |
| 8 | Trainer's Chair | 01 no. | | |

5. Other Requirements

- □ Biometric machine with GPS connection
- □ Projector for e-learning classes
- □ Disaster Management Plan

Note:

- 1. Availability of biometric machine with GPS connection is mandatory.
- 2. Availability of projector is mandatory.
- 3. All the institutes shall have disaster management plan as prescribed in the general guidelines for Disaster Management at Annexure-2B, S. No. 8 & 9

| 6. | Power Supply: | | |
|----|---------------------|--|--|
| | Data of connections | | |

- $\hfill\Box$ The connection is in the name of ITI/ Applicant organization at the ITI address
- □ Supply has three phase commercial connection
- □ Backup electric supply is available as per norms

| S No. | Trade Name | No of Units applied in one shift | Power Supply Required for Each Unit as per Norms (in KW) | Total Power Supply Required (in KW) |
|--------|---------------------------------|----------------------------------|--|--|

| 3 | <auto-populate></auto-populate> | <auto-populate></auto-populate> | <auto-populate></auto-populate> | <auto-calculate></auto-calculate> |
| 4 | <auto-populate></auto-populate> | <auto-populate></auto-populate> | <auto-populate></auto-populate> | <auto-calculate></auto-calculate> |

| a. Total power supply required in the institute in KW: (Including New & Existing Trades/Units) | |
|--|--|
|--|--|

- b. Total power supply available in the institute in KW: Including New & Existing Trades/Units:
- c. Deficiency/ Surplus power available in the institute in KW: ____
- d. For existing institute electricity bill indicating connected load(Upload)
- e. For new institutes: Installation report/ Meter sealing report indicating sanctioned load or if meter sealing report does not have sanctioned load, copy of the sanctioned load, proof of payment of dues for the same along with meter sealing report (Upload)

Note:

- i. The connection shall be in the name of Applicant Trust/ Society/ Company/ Institute
- ii. Supply shall have three phase commercial connection only
- iii. Backup electric supply shall be available as per norms. Training equipment/ machinery will not be considered against infrastructure, equipment as per norms.
- iv. Total power supply available/sanctioned in the institute shall not be less than total power supply required in the institute
- v. The power supply norms for each trade can be seen at Annexure- 2F

7. Boards and Signages

Please indicate the availability of the boards:

- □ Signage board on plot entrance (include ITI's name, logo and complete address along with Skill India logo)
- □ Signage board on institute building (include ITI's name and logo along with Skill India logo)
- □ Emergency Exit Boards
- □ Board indicating danger signs (Transformer, Generator Set, Heavy Electrical Installation/ Panels)
- □ Prohibited area indicators (running machinery etc.)
- □ Signage boards showing directions (include directions showing the different sections of the building like classrooms, workshops, IT lab, admin building etc.)
- □ Boards indicating firefighting equipment
- □ Trade details board (include list of trades, seating capacity, trainee enrolled and name of machinery and equipment installed)
- □ Staff details board (include staff details with name, qualification/designation and contact numbers at least for Principal and Group Instructor/ Training officer if any)

Note: All the boards are mandatory. Institute Sign Board to be made in English/ Hindi/ Regional language. The signage should be bilingual. The size of the font should be minimum 75 mm. The size of the Board may be $2m \times 1.5 m$ or $3m \times 1.5 m$ or $4m \times 2.0 m$.

8. Upload Photographs

9. Other Details (optional)

- □ Rainwater harvesting and augmentation
- □ Solar energy/Renewal energy source
- □ Sewage treatment plant
- □ Announcement system in classrooms, strategic locations for general and emergency announcements
- ☐ Enterprise Resource Planning (ERP) software for student-institution-parent interaction
- □ ATM
- □ CCTV Security System
- □ LCD (or similar) projectors in classrooms

Note: i). Rainwater harvesting and augmentation, Solar energy/Renewable energy source availability and Sewage treatment plant is mandatory for all the ITIs with strength more than 500 trainees in each shift.

Annexure - 2A

List of Documents

Application Submission- Stage I

- 1. Registration document of the organization indicating its members, objectives and Memorandum of Associations and Rules
- 2. PAN Card
- 3. Resolution by the applicant organization/Trust/ Society/Others, pertaining to starting an Industrial Training Institution in the **Format- 2** prescribed.
- 4. Resolution by the applicant organization, pertaining to Nominating Authorised person in the Format-3 prescribed.
- 5. Valid ID Proof i.e. Voter Id Card/ PAN Card/Driving License/Passport/ Aadhar Card of Trustees/ Members/ Directors/ Owners/ Partners
- 6. Valid ID proof i.e. voter Id Card/PAN Card/Driving License/Passport of authorized person

Application Submission-Stage II

- Documents showing ownership in the name of the applicant in the form of Registered Sale Deed/ Irrevocable Gift Deed (Registered)/
 Irrevocable Registered Lease (for a period of minimum 10 years of live lease at the time of submission of application) by the concerned
 authority of Government or any other documents issued by the concerned competent authority establishing the ownership and
 possession of the land in the name of the applicant. In case, the land documents are in vernacular language, notarized English translation
 of the documents shall be uploaded.
- 2. Building plan shall be approved by Town Planning Department/ District Magistrate (Collector)/ Development Authority/ Municipal Authority/ Any other Competent Authority as per State Government/ UT.
 - oBuilding plan of institute should clearly indicate the workshop for all trade/units/modules, classrooms, IT Lab, administrative area, amenities area etc. with its dimensions in MKS System (Units based on measuring lengths in meter, mass in kilogram and time in second)
- Building Completion/ Occupancy Certificate as per Local Building bye-laws/ NBC of India duly approved by Municipal Authority/ District Magistrate (Collector)(Shall include certification for Land Use, Land Conversion, Safety of lift wherever applicable).
- 4. Fire Safety Certificate, duly approved by Authority from Fire and Safety department of the concerned state government/ UT.
- 5. Resolution by the applicant organization, pertaining to adding new program and allocation of land and building specification, machineries/ equipment/ tools, power supply/ backup power supply/ funds for proposed activities etc. in Format-4 as prescribed.
- 6. Resolution regarding Electrical Connection in Format-5 as prescribed.
- 7. Certificate-1 issued by an advocate in a format prescribed regarding authenticity and appropriateness of Trust/Society Registration Documents, Land Documents, Land Use Certificate and Land Conversion Certificate.

Application Submission- Stage III

- 1. Tax invoices for machineries, equipment and tools. Tax invoices shall not be older than 6 months from the date of application.
- 2. Vehicle registration certificate should be uploaded.
- 3. For New Institutes: Installation report/ Meter sealing report indicating sanctioned load or if meter sealing report does not have sanctioned load, copy of the sanctioned load, proof of payment of dues for the same along with meter sealing report.
- 4. For existing institutes, electricity bill indicating connected load and latest bill of payment made.
- 5. Details of provision of backup power supply.

Staff Details

- 1. Valid ID proof i.e. Voter Id Card/PAN Card/Driving License/Passport of all Staff
- 2. Aadhar card
- 3. Photograph
- 4. High School (10th Standard) certificate needs to be uploaded on website
- 5. ITI/ Diploma/ Degree certificate as applicable
- 6. Experience certificates of the staff
- 7. Account details for salary transfer
- 8. Driving Licence of Instructor for Auto mobile sector trades

Additional Documents to be submitted for Closure of Trades/ Units in Existing Institutions

1. Resolution by the applicant institution, pertaining to application for Closure of Trades/ Units in the **Format-8** as prescribed.

Additional Documents to be submitted for Progressive Closure/ Closure of Institution

- 1. Resolution by the applicant institution, pertaining to application for Closure of Institution in the **Format-9** as prescribed.
- 2. Only for Closure of the Institute: Pending court cases and serious charges, violation of norms, against the institute.

Guidelines for Training and Support Infrastructure

A. Setting up of a Drawing Hall for Engineering Trade(s)

The following items are required for Engineering Drawing subject in Engineering Trade(s)(except Draughtsman (Civil)/Draughtsman (Mechanical) trades).

| S No. | Name of Tools/ Equipment | Norms |
|-------|--|---------------------------------|
| 1 | Drawing Board Standard Size, Adjustable Type | 20 no. per one unit arrangement |
| 2 | Models: Solid & Cut Section | As required |
| 3 | Table for Trainees (Adjustable Type) | 20 no. |
| 4 | Stool for Trainees | 20 no. |
| 5. | Cupboard (big) | 01 no. |
| 6 | White Board (size: 8ft. x 4ft.) | 01 no. |
| 7 | Trainer's Table | 01 no. |
| 8 | Trainer's Chair | 01 no. |

B. Setting Up of IT Lab

The following items are required for IT lab:

| S No. | Details | Norms |
|-------|--|---|
| 1. | Desktop computer with latest configuration (only LCD or LED monitor to be allowed) | Minimum 10 nos. up to seating capacity of 100 trainees per shift For each additional 20 trainees: 2 computers |
| 2. | Internet connection | Minimum 2 mbps connection |
| 3. | Licenced multimedia, anti-virus software, operating software with UPS | Mandatory |
| 4. | LAN Cabling, LAN Switch | As required |
| 5. | Printer (Ink jet, Laser) | As required |
| 6. | Scanner | As required |
| 7. | Server | As required |
| 8. | External Hard Disk – 1TB | 1 no. |
| 9. | Instructor/ Office Chair | 1 no. |
| 10. | Instructor/ Office Table | 1 no. |
| 11. | Trainees/Computer Chairs | 20 nos. |
| 12. | Trainees/Computer Tables | 10 no. |
| 13. | Black/ White Board 4X6 Feet | 1 no. |

Note:

- 1. The requirement of IT lab is over and above the Trade requirement. The institute does not need a separate IT lab, if the institute is running only COPA trade. If any other trade in addition to COPA is running in the institute, then a separate IT lab is mandatory.
- 2. N-computing system is allowed with standby server and UPS. For every 10 computers, 1 Common CPU is required. Similarly, if N-computing system is used, 1 no. of 5 KVA UPS is required for 10 computers, in case ITI does not have N-computing, then each computer should have a separate CPU and common/separate UPS.
- 3. N-computing Server configuration prevalent at the time of procurement or with the following minimum features: CPU: 32/64 Bit Core 2 Duo/Quad Core/i3/i5, Speed: 3 GHz or Higher. Cache Memory: Minimum 3 MB or better. RAM:8 GB DDR-III or higher. Hard Disk Drive: 500GB or higher, 7200 rpm (minimum) or higher, Wi-Fi enabled. Network Card: Integrated Gigabit Ethernet (10/100/1000) Wi-Fi, USB Mouse, USB Keyboard and Monitor (Min. 22 Inch), Standard ports and connectors. DVD Writer, Speakers and Mic. Licensed Windows Operating System/ OEM Pack (Preloaded) Antivirus/ Total Security.
- 4. Every computer should have multimedia, anti-virus software, latest operating software with UPS.
- 5. If dongles used, separate dongles for each PC shall be available

C. Desirable Requirements

Following are the desirable requirements that can be adopted by an ITI:

- 1. Rainwater harvesting and augmentation
- 2. Solar energy/ Renewable energy source
- 3. Sewage treatment plant
- 4. Announcement system in classrooms, strategic locations for general and emergency announcements
- 5. Enterprise Resource Planning (ERP) software for student-institution-parent interaction
- 6. ATM
- 7. CCTV Security System
- 8. LCD (or similar) projectors in classrooms

Note:

- I) The above desirable requirements are optional, and not binding on the ITI, for implementation
- ii) Rainwater harvesting and augmentation, Solar energy/Renewable energy source availability and Sewage treatment plant is mandatory for all the ITIs with strength more than 500 trainees in each shift

D. General Guidelines for Disaster Management

Essential and Desirable Requirements/ General Guidelines in Case of Various Events:

1. FIRE

Essential Requirements:

All the buildings, after completion and before occupation, shall be inspected for fire and life safety measures by the Local Fire Service Authorities and a certificate to that effect shall be obtained. In the absence of such a certificate, following requirements shall be met:

- Fire buckets filled with sand shall be hung in the protected stands near workshop, laboratory, DG room, transformer and sub-station.
- Fire point should be established in front of each building with 2 fire water buckets, 2 sand buckets and 4 fire extinguishers, one of each type.
- Minimum 2 (nos.) extinguishers of any type should be installed at every prominent location.
- Every exit, exit access or exit discharge shall be continuously maintained free of all obstructions or impediments to full use in case of fire or other emergency.
- Retro reflective signage shall be provided for escape routes at a suitable height
- Evacuation drill shall be conducted quarterly for each building
- To avoid stampede and to manage any emergency properly, the institution should have a Standing Fire Order (SFO) document containing established procedures required to handle fire & emergency situations in which duties & responsibilities of various authorities & agencies are included (Sample copy enclosed).

Desirable Requirements:

- The CCTV camera shall be provided to cover all the important areas of the campus including firefighting system like extinguishers, hose reels, risers, automatic detection and alarm system, sprinkler system, manual call points etc.
- Assembly point shall be provided in a safe place with no fencing around it

2. ELECTRICAL HAZARD

Essential Requirements:

- Proper earthing and bonding of electrical wiring shall be ensured
- All major equipment shall be earthed separately
- Earth leakage circuit breaker (ELCB) shall be provided as required
- No overhead high tension electric line shall pass across the premises
- Sub-stations or transformers, if any, shall be segregated. Carbon dioxide, dry chemical powder (DCP) and mechanical foam fire extinguishers, sand buckets shall be provided.

Desirable Requirements:

- All overhead electric lines shall be at a height not less than 5.4 m from the ground.
- Electrical resistant mats should be placed in front of every electric panel.
- Only trained and licensed electricians should be allowed to do work related to electric supply.
- Vertical clearance of any bare electric line passing near a building shall be minimum 2.43 m from the highest point in the building and the horizontal clearance shall be minimum 1.2 m from the closest part.
- A clear space of not less than 1 m in width shall be provided in front of the switchboard.
- If there are any attachments or bare connections at the back of the switchboard, the space (if any) behind the switchboard shall be either less than 20 cm or more than 75 cm in width, measured from the farthest outstanding part of any attachment or conductor.
- Lightning arrester shall be provided for all the buildings.

3. UNSAFE DRINKING WATER/ FOOD:

Essential Requirements:

- Clean all reservoirs on periodic basis
- Test quality of water every three months

Desirable Requirements:

· Test quality of samples of food prepared on campus in an independent laboratory preferably once in six months

4. WORKSHOP ACCIDENT

Essential Requirements:

- Personal protective equipment shall be available for each one entering the workshop.
- Instructions for workshop safety must be displayed inside and outside the workshop.
- First aid kit shall be maintained.
- Safety precaution for operation for each machine should be affixed on it.
- Standard Operating Procedure (S.O.P.) for all the equipment and system must be prepared and properly displayed near the
 respective machines.
- All the electrically operated machinery should be properly earthed and bonded.
- Emergency contact numbers shall be displayed for contacting, in case of any emergency which should include safety officer, fire control room, medical assistance, security assistance, head of the concerned department, maintenance services.
- Instructions regarding the procedure to be followed in case of an emergency in the building or outside the workshop or during the ongoing workshop.
- Instructions shall be displayed inside and outside the workshop in the form of Do's and Don'ts.

Desirable Requirements:

- While installing or keeping machines and tool, racks aisles and gangways should be provided.
- There should be a schedule for standard test for machines and tools.
- Workshop floor should be made by non-skid and non-static floor tiles.
- Place for disposal of materials should be properly marked.
- Housekeeping shall be done as per proper schedule.
- Various fuels used in workshop shall be stored in minimum quantity according to requirement.
- Proper ventilation facilities shall be provided to prevent dust accumulation.

5. EMERGENCY SITUATION-PHYSICALLY

DISABLED Essential Requirements:

- Ramp shall be provided for the disabled for easy access and evacuation from the building
- Sufficient wheel chairs and stretchers to be available for use in emergency

Desirable Requirements:

- Information regarding the number of physically challenged individuals in the campus should be available with the Safety Officer
- The time and the number of physically challenged individuals among the visitors shall be recorded at the security gate

6. STRUCTURAL FAILURE OF BUILDING

General Guidelines:

- Emergency evacuation procedure with evacuation plan shall be kept ready
- Provisions shall be made to cut off water, electricity and LPG connections safely from outside the building
- Structural audit of buildings shall be done periodically

7. STAMPEDE

Guidelines to be followed:

- Proper signage for traffic control route shall be displayed
- Public address system shall be implemented to communicate and direct
- Power backup for extra illumination of exit routes shall be available
- It is necessary to do planning and practicing mannerly and orderly evacuation and maintaining records
- Student volunteers need to be trained for proper evacuation
- Ensure that no more than 4 individuals/ Sqm shall assemble in all assembly areas
- Temporary barriers shall be provided to use in emergency to restrict and to control traffic

8. EARTHQUAKE

General Guidelines:

- Construction of building shall be as per relevant Indian Standards and Codes of practice. If already constructed structures are not designed to satisfy earthquake resistance, shall be strengthened as per relevant Indian Standards and Codes of practice.
- Proper evacuation plan based on the Standing Fire Order shall be maintained and it should cover all the possible emergencies.
- Evacuation drill/ exit drill shall be conducted quarterly and such records shall be maintained (Different groups, members, date of conducting drill, observations)
- Training should be given to all members of the evacuation teams to perform their duties and records shall be maintained.
- The most suitable and safest place shall be selected as safe assembly point for each building.
- Large or heavy items, if any, shall be placed closest to the ground.
- Hang large items such as framed pictures, large mirrors etc. away from sitting place, bed and protected escape routes.
- Brace overhead light fittings properly.
- An inventory for the details of heavy duty equipment and necessary tools with the details and contact numbers of owner
 and operator shall be maintained for ready reference.
- Avoid glass panelling for buildings. However, if provided, shall be protected with metal screens.

9. CYCLONE

General Guidelines:

- Keep in contact with the concerned authorities before the cyclone season each time for warning and precautionary measures.
- List of emergency phone numbers shall be displayed
- Training should be given to all members of the response teams to perform their duties, and records shall be maintained.
- Provision shall be made to secure strongly all doors, windows and other openings, if any, in closed position.
- Emergency kits containing portable battery radios, torch lights, spare batteries, water container, dry fruits, matchboxes, fuel lamps, portable stove, cooking utensil, etc. shall be maintained in cyclone prone areas.
- Low frequency communication devices shall be in place.

- Avoid glass panelling for buildings. However, if provided, shall be protected with metal screens.
- Construction of buildings shall be strong enough to resist collapse during wind.
- Long and continuous structures shall be avoided so as to reduce the effect of wind.
- Deep rooted plants which can resist wind can be planted around but not outside the boundary wall to reduce the wind velocity.
- No tall plants shall be planted/kept in the compound, especially near any building.

10. FLOOD

General Guidelines:

- Provision for the storage of drinking water at the rate of 4.5 litres/ 1 day/ person for the total occupants for a minimum of 3 days during impending flood, shall be made.
- Provision for storage of non-perishable, easy to prepare food for 3 days' supply during impending flood shall be made.
- Flash light for signal (Red Cross store) shall be arranged.
- Portable battery radios (if possible NOAA National Oceanic and Atmospheric Administration type) shall be arranged.
- Flood rescue equipment like lifebuoy, life jacket and portable boats with oar and out board engine, rope shall be stored and ready for use.
- Occupational health centre shall be maintained.
- Paramedical team shall be available and trained.
- Provision should be made on top floors of the buildings for shelter in case of flood.
- Insect repellents and sunscreen shall be stored.

11. LANDSLIDE

General Guidelines:

- Construct retaining walls wherever necessary to prevent erosion
- Train permanent staff to identify the symptoms of landslide
- Avoid buildings in steep slope or along natural erosion valleys

12. STANDING FIRE ORDER

(To be displayed at all the floors at suitable visible places with all emergency contact numbers)

12.1 Responsible Authorities

- The person who detects the fire
- Safety Officer
- Maintenance Section

12.2 Person who detects the Fire

• Immediately inform the Safety Officer and Head of the Section/ Division

13.3 Responsibilities of Safety Officer:

On Receipt of Information:

- He/ She shall immediately proceed to the scene of incident and assess the situation.
- If considered necessary, he / she shall raise fire alarm for his/ her zone, and notify the incident to fire department and the listed emergency services.
- If necessary, he/she shall direct the Maintenance section to salvage the records and materials from the area.
- If considered necessary, he/ she shall evacuate his/ her zone and/or neighbouring zones.
- At the earliest opportunity, he/ she shall inform the incident to the Departmental head.

Duties of Maintenance Section Members:

On receipt of call for emergency in their own zone, all the members of Maintenance Section:

- Shall immediately proceed to the place of incident and report to their Duty Officer
- Shall strictly follow the instructions of Safety Officer and work under him/ her as per his/ her directions.
- Shall, as per the instructions of Duty Officer/Fire Officer, switch off the electrical supply to the affected area.
- Shall see that electric supply is restored only on instructions from the Duty Officer/Fire Officer.
- Close the air condition system at the affected area.

- 3. Shall ensure that booster pump located in the building is switched on.
- 4. Shall ensure that all the hydrants in and around the building are charged with sufficient pressure.

Duties of Other Staff from the Affected Zone/ Zones:

On hearing the emergency alarm, all the other members of staff:

- 4. Are requested not to panic, but to remain calm and follow instructions of the Safety Officer in an orderly and disciplined manner.
- 5. If directed to evacuate, shall ensure that all the electric lights at their workplace are switched off and that all the windows and doors of their area are properly closed before leaving the place.
- 6. During evacuation, shall proceed in an orderly manner to the ground floor by the nearest available staircase/emergency exit.
- 7. Shall not use the lift.
- 8. Shall see that, individuals assigned with specific duties in an emergency are not disturbed or obstruct their work.

Ministry of Skill Development & Entrepreneurship

Annexure - 2C

Trade Specific Norms for Machinery/Equipment/ Tools

The list of required Machinery/Equipment/ Toolsis available on DGT website .

Annexure - 2D

Norms for Site Visit III preparation

5. All machineries, equipment and tools to be laid out as per following guidelines:

Manufacturing packings, instruction booklets must be removed from machineries, equipment, tools, chairs and tables before site assessment.

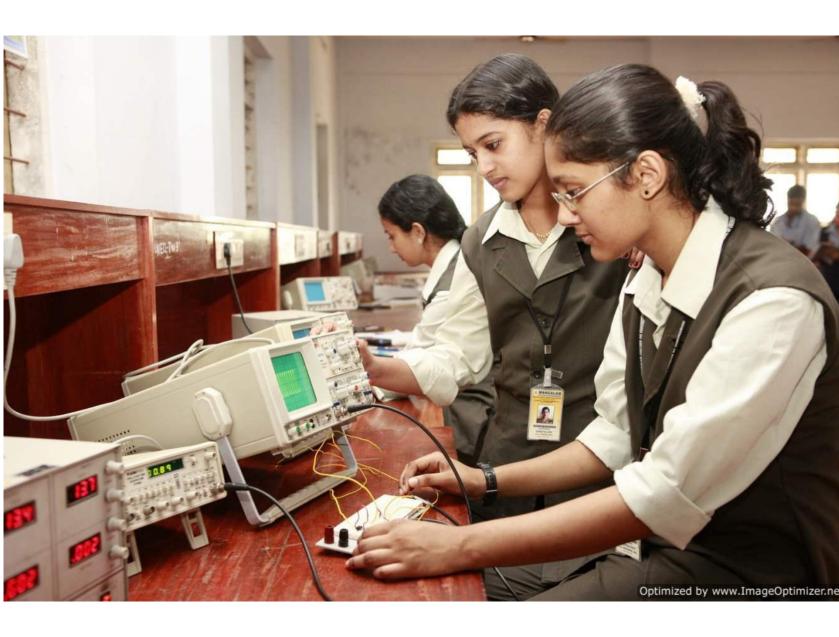

Permanent identification marking/ sticker(may be yellow sticker or any one) on all the equipment, machines and tools/items) with identification number as per the scheme followed.

Mark numbering starting from 1 to n (n being the nos. of items in a trade applied by ITI). For example, for electrician trade as per DGT website, there are 140 items then place mark starting from W1 to W140 (in sequence with DGT List) for workshop items and there are 20 items for Tool Kit so mark T1 to T20 in sequence with DGT list.

In case of items having value more than Rs. 10,000/-, please encircle the item number for example: (W2/1)

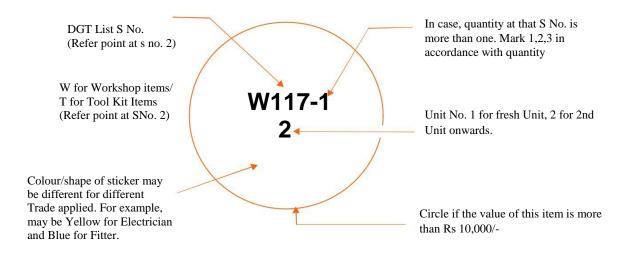

In case the quantity is more than one number of an item at a particular serial number (S No.). In such case, suffix 1, 2 or so on. For example, there are 3 nos. of Lathe machine for workshop items at S No.1 for Turner trade. Please mark W01-1, W01-2, W01-3.

In case ITI has applied for more than one unit, mark items for 1st unit as W2/1 or T4/1 for 2nd unit W2/2 or T4/2 and so on as illustrated in following table:

| Workshop Items | | | | | | Tool Ki | it | | | |
|----------------|-------------------------------|-----------|-------------------------|-------------------|-------------------------|--------------|-------------------------|----------------|-------------------------|------------|
| Iten | ns as per DGT | list | Value than 10,000 | Less Rs | Value than 10,000 | more Rs | Value than 10,000 | Less Rs | Value than 10,000 | more Rs |
| S No | Descriptio | Qty | 1stUni | 2ndUn | 1stUni | 2nd Un | 1stUni | 2ndUn | 1stUni | 2ndUn |
| | n | | t | it | t | it | t | it | t | it |
| 82 | Limit | 2 | - | - | - | - | - | - | - | - |
| | Switch | 1st Pc | W82-1 1 | <u>W82-1</u> 2 | - | - | - | - | - | - |
| | | 2nd | W82- | W82-2 | - | - | - | - | - | - |
| | | Pc | <u>2</u> 1 | 2 | | | | | | |
| 01 | Lathe | 3 | - | - | - | - | - | - | - | - |
| | Machine | 1st Pc | - | - | <u>Wo1-1</u> 1 | <u>W01-2</u> |)- | - | - | - |
| | | 2nd Pc | - | - (| <u>W01-1</u> 2 | W01-2 2 |) | - | - | - |
| | | 3rd Pc | - | - (| <u>Wo1-1</u> 3 | W01-2 3 |) | - | - | - |
| 4 | Screw driver of Toolkit | eac h | - | - | - | - | <u>T4</u> 1 | <u>T4</u> 2 | - | - |

• Ddifferent coloured/shaped stickers are to be used to identify items trades wise.

- 2. The main machinery shall be grouted in the ground/ machine foundation
- 2. All machines and equipment costing >Rs 10,000/- and above shall be hard punched/ engraved with the **Institute Initials/State Code/Application Number** at two places near the foundation.

For E.g.: ABC Private ITI in Himachal Pradesh with Application Number APP00999 the Hard punching/ engraving is to be done as: ABCPITI/HP/APP00999

Annexure - 2E

Guidelines of Videography for Site Visit

The guidelines of videography by the ITI applicant are as under:

- vi. Duration of videography must be at least 30 minutes. Videography shall be carried out in proper lighting condition.
- vii. The video should not be in parts. One single video clip of site visit should be sent to State Directorate.
- viii. The video shall be geo-tagged and time stamped.
- ix. Videography must be in CD or DVD and should be of very good quality. It must cover the assessors carrying out assessment of infrastructure of institute
- · Besides this, it must cover walk through video of all infrastructural facilities
- It must show sequence along with signage in following manner:

Approach road leading to ITI gate and access road from ITI gate to ITI building

Plot's signboard

Institute's signboard

Front view, around the building, elevation and back view of institute

Full view of classrooms, workshops and IT lab

View of roof of the workshops

View of the floor of the workshops, classrooms, drawing hall

View of Administrative areas

View of Amenities areas

Views of circulation area details highlighting entrance lobby, passages, escalators, staircases and other common areas

- All the machineries, equipment and tools in working conditions
- · Meter connection
- The video should focus on grouting of machineries, installation, wiring, safety measures, running condition and the engraving on all the tools costing more than Rs 10,000/-
- In the case of existing ITIs, videography must cover the workshops of new trade/unit sought for affiliation as well as for the existing one for that particular affiliated trade/unit

Annexure - 2F

Trade Specific Norms for Machinery/ Equipment/ Tools

Annexure - 2G

Norms forDeployment of Staff

The details of the technical staff, qualification and experience and other relevant data to be followed from latest norms mentioned in training manual of NCVT.

Annexure - 3

Initial Scrutiny Format

| S No. | Details | Meets Norms (Yes/No) | Remarks (fill only if norms are not met) | Decision |
|-------|---|-------------------------|---|--|
| 1. | Whether applicant has been de-barred/black-listed by DGT/ NCVT | Yes/No | Fill details | Reject Application (Application need not be evaluated further) |
| 2. | Registration document of the organization (indicating its members, objectives and MoA and Rules) | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Organization name does not match with the registration document e. Date of registration does not match with the registration document f. Any other reason, please specify Raise NC | |
| 3. | PAN Card | Yes/No | a. Document not legible b. Wrong document c. Organization name (Name of Individual for Sole proprietary) does not match with the PAN card d. Any other reason, please specify | Raise NC |
| 4. | Resolution by the applicant organization, pertaining to starting ITI in the Format-2 | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Resolution document content not matching. e. Any other reason, please specify | Raise NC |
| 5. | Valid ID Proof i.e. Voter Id Card/ PAN Card/Driving License/ Passport/ Aadhar Card of Trustees/ Members/ Directors/ Owners/ Partners/ Principal Repeat for each individual | Yes/No | a. Document not legible b. Wrong document c. Name does not match with the ID Proof d. Any other reason, please specify | Raise NC |
| 6. | Resolution by the applicant organization, pertaining to nominating Authorised person in the Format-3 | Yes/No | a. Document not legibleb. Wrong documentc. Incomplete documentd. Any other reason, please specify | Raise NC |
| 7. | Valid ID Proof i.e. Voter Id Card/ PAN Card/Driving License/ Passport/Aadhar card of authorized person | Yes/No | a. Document not legible b. Wrong document c. Name does not match with the ID Proof d. Any other reason, please specify | Raise NC |
| 8. | Is website of the organization functional? | Yes/No | Fill remarks | Raise NC |

Annexure - 4

Desktop Assessment Format for Stage II

| S No. | Details of Documents | Meets Norms (Yes/No) | Remarks (fill only if norms are not met) | Decision |
|-------|--|-------------------------|--|----------|
| 1. | Whether documents showing ownership is in the name of the applicant in the form of Registered Sale Deed/ Irrevocable Gift Deed (Registered)/ Irrevocable Registered Lease (for a period of minimum 10 years of live lease at the time of submission of application) by the concerned authority of Government or any other documents issued by the concerned competent authority establishing the ownership and possession of the land in the name of the applicant | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Document is not in name of applicant institution or organization e. Documents are in vernacular language, notarized English translation of the documents is not available f. Any other reason, please specify Only for leased building g. Date of commencement of lease does not match with document h. Date of expiry of lease does not match with document i. Date of commencement of lease or expiry of lease does not match with the document and the norm for minimum duration of live lease not met | Raise NC |
| 2. | Whether Building plan is approved by Town Planning Department/ District Magistrate (Collector)/ Development Authority/ Municipal Authority/ Any other Competent Authority as per State Government/ UT | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Document is not approved by the competent authority in the State/ UT e. Address on the document does not match with the proposed land/building address f. Document does not indicate the workshop for all trade/units/modules, classrooms, IT Lab, Administrative area, Amenities area etc. with its dimensions in MKS System g. Any other reason, please specify | Raise NC |
| 3. | Whether Building Completion/ Occupancy Certificate is as per Local Building bye-laws/ NBC of India duly approved by Municipal Authority / District Magistrate (Collector) (Shall include certification for Land Use, Land Conversion, Safety of lift wherever applicable) | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Address on the document does not match with the proposed land/building address e. Document is not approved by the competent authority in the state/ UT f. The purpose of the building is not specified g. Any other reason, please specify | Raise NC |
| 4. | Is Fire Safety Certificate, duly approved by Authority from Fire and Safety department of the concerned State Government/ UT | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Address on the document does not match with the proposed land/building address e. Document is not approved by the competent authority in the state/ UT f. Any other reason, please specify | Raise NC |

| S No. | Details of Documents | Meets Norms (Yes/No) | Remarks (fill only if norms are not met) | Decision |
|-------|---|-------------------------|--|----------|
| 5. | Whether Resolution by the applicant organization, pertaining to starting the new Industrial Training Institution or adding new Trade/Units and allocation of land and building specification, machineries/ equipment/ tools, power supply/ backup power supply/ funds to proposed activities etc. are in Format-4 | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Name and address on the document does not match with the proposed name and address of ITI e. Document is not approved by the competent authority f. Trades/Units sought not matching minimum/maximum criteria, existing trade /units/address/any information not matching. g. Any other reason, please specify | Raise NC |
| 6. | Whether Resolution regarding Electrical Connection is in Format-5 as prescribed | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Name and address of ITI on the document does not match with the proposed name and address of ITI e. Document is not approved by the competent authority f. Existing ITIs sanctioned power or electricity bill name /any other information is not matching g. Any other reason, please specify | Raise NC |
| 7. | Certificate- 1 issued by an advocate in a Format prescribed regarding authenticity and appropriateness of Trust/Society Registration Documents, Land Documents, Land Use Certificate and Land Conversion Certificate | Yes/No | a. Document not legible b. Wrong document c. Incomplete document d. Registration document is not authenticated e. Land possession document is not authenticated f. Land Use Certificate is not authenticated g. Land Conversion Certificate is not authenticated h. Name and address of ITI on the document does not match with the proposed name and address of ITI h. Document is not approved by the competent authority i. Any other reason, please specify | Raise NC |

<Name of ITI>

<Address of ITI>

Subject: Letter of Intent (LoI) for setting up Industrial Training Institute (ITI) under the handbook for Accreditation and Affiliation Norms and Procedures for establishing ITIs.

Reference: Application No.

- In terms of Section _ of the handbook for Accreditation and Affiliation Norms and Procedures for establishing ITIs, your institute had submitted an application on for grant of approval for establishing an ITI.
- On the basis of the documents submitted by the institution and the details verified by State Directorate for Stage II, it has been observed that the institution has adequate infrastructure as per the standards prescribed by NCVT/ DGT.
- You are requested to submit the application for Stage III and follow the terms and conditions.
- The applicant has to apply for Stage III within 6 calendar months of issuance of LoI for Stage III. In case where new norms have been issued, new norms will be applicable for applications wherein details have not been submitted by the applicant within 6 months from issue of LoI. In this case, the applicant has to submit the final details within one year of the issue of LoI for Stage III. Otherwise, the application will be rejected.
- The issue of Letter of Intent (LoI) for Stage III does not guarantee affiliation of the institute.

Yours faithfully

Civil Norms for ITIs Affiliation 2017

CHAPTER 2

CIVIL NORMS FOR ITIS AFFILIATION - 2017

The Industrial Training Institutes also known as ITIs in India are institutes imparting technical training in engineering and non-engineering trades. The first ITI was established in 1950 and since then has been instrumental in the economic development of the country. ITIs are adept in producing skilled manpower for the country and contributing to the youth self-development. They were constituted and managed by the erstwhile Directorate General of Employment & Training (DGE&T), Ministry of Labour and Employment which is now renamed as Directorate General of Training (DGT) under the aegis of newly formed Ministry of Skill Development and Entrepreneurship (MSDE), Government of India.

The Ministry of Skill Development and Entrepreneurship (MSDE) was formed in 2014 and the Skill India Mission was launched on 15 July 2015. The ITI ecosystem thereon was also brought under the purview of Skill India for garnering better results in the vocational education and training (VET) space. The ITI curriculum is befitting for the students who have completed their class 8-10 formal school training and wish to pursue technical training instead of regular courses/ colleges available in the market.

Vocational training/skill development training is the need of the hour which is practical in nature and its curriculum helps in meeting the emerging workforce needs and the industrial growth. The ITIs impart vocational training which is a part of the concurrent list of the Constitution of India and is administered by both State and Central Government. Currently, there are 13,353 ITIs in the country including 2,152 Government and 11,201 Private ITIs. The students are awarded National Trade Certificates (NTC) by National Council for Vocational Training (NCVT). This body also prescribes the curriculum for ITIs and administers the standards of training.

There has been a steady rise in the number of ITIs starting from 1950s and it is important that the quality aspect is given due weightage as it ensures that the right mix of qualification, skills and practical knowledge is imbibed in the candidate to suitably serve the industry requirements.

A better quality of vocational education enriches learning; leading to better job prospects and self-employment for the candidates, further contributing to the country's economic development. The high unemployment rate in the country can only be improved by improving the quality of training imparted in ITIs. The quality aspect needs to be completely overhauled for a massive turnaround in the employable skills of candidates and employment opportunities available. It is imperative to prepare our students/candidates for competing in the global market.

The fourth industrial and technological revolution is at its cusp with the introduction of new technologies merging the physical, digital and biological worlds. This revolution majorly comprises emerging technology breakthroughs in fields like artificial intelligence, robotics, Internet of Things, nanotechnology et al. According to a popular estimate, 65% of children entering primary school today will ultimately end up working in completely new job types that don't existyet. So, the newer generation youth and the ever changing advancements in technology call for a complete overhaul in the skill ecosystem and the curricula by anticipating and preparing for future skill requirements.

Against this backdrop, DGT has proposed for a revamp in accreditation and affiliation norms by largely improving the infrastructure to deliver qualitative education and training. The existing situation has a lot of flaws which need to be rectified on an urgent basis in order to lay a stronger foundation. Accreditation focuses on learning, self-development and encourages ITIs to pursue continual excellence.

Its salient objectives are:

- J. To assess institutions and their programs that meet defined quality standards
- K. To foster excellence in ITI building effectiveness in delivering competency based education and training
- L. To establish framework for continuous improvement and provide opportunity to benchmark with other institutions
- M. To facilitate developing professional competency of the trainees

With a border objective to improve the quality of the training in ITIs, Ministry of Skill Development and Entrepreneurship had constituted a committee to review the existing NCVT affiliation norms relating to setting of ITIs, and suggest new Civil and Procedural norms, confirming to Local Building Bye-Laws or National Building Code of India. The Civil norms suggested by above committee were deliberated in various meeting of stakeholders. These norms were further vetted by Technical Advisory Committee headed by Shri. Prof. Bhim Singh, Dean Academic & Professor Electrical Engineering, Indian Institute of Technology (IIT), New Delhi. Claims and suggestions were also invited from all stakeholders including State Governments/State Directorates.

ITIS AFFILIATION NORMS 2017

CIVIL NORMS FOR ESTABLISHMENT OF ITIS

- iv. Sizes of the workshop and class room shall remain the same as mentioned in existing norms placed at Annexure 2 M & Annexure 2N
- v. In addition to B.C.C and existing guidelines as per annexure 2M and 2N, there are other essential requirements that have to be met and are as follows

| S No. | Particulars | Description of Norms |
|-------|---|---|
| 1.0 E | BUILDING DETAILS | |
| 1.0 | Building Completion Certificate of the Institute | Desirous Institutes are required to submit a Building Completion Certificate (BCC) with respect to name & address of the ITI from Municipal Authority/ Development Authority/ Competent Authority clearly stating that the Building(s) is fully constructed and ready in all respects for the intended use as Industrial Training Institute (ITI) as per the local building Bye-Laws related to ITIs/ Technical Education/ Technical Institution Buildings. If local buildings Bye-Laws are not available, then the building should conform to the Bye-Laws prescribed for ITIs/ Technical Education/ Technical Institution Buildings in National Building Code (N.B.C) of India (Refer to Part 3, Part 4, Part 8 and Part 9). If the ITI falls in an area, where presently no statutory physical plans like Master plan/ Development plan, regional plan, peripheral plan, zonal plan etc. exist under relevant State Act, then relevant certificate shall be submitted from District Magistrate (Collector)/ Development Authority/ Municipal Authority/ Any other Competent revenue Authority as approved by the State Government. In such case, Building Completion Certificate of the ITI shall be approved by Government Civil/Structural Engineer clearly stating that the Building(s) is fully constructed, safe and ready in all respects for the intended use as Industrial Training Institute (ITI) as per NBC of India. |
| 1.1 | Approved Building plan of the Institute | Building plan shall be approved by Town Planning Department / District Magistrate (Collector)/ Development Authority/ Municipal Authority/ Any other Competent Authority as per State Government Act. If the ITI falls in an area, where presently no statutory physical plans like Master plan/Development plan, regional plan, peripheral plan, zonal plan etc. exist under relevant State Act(s), then relevant certificate shall be submitted from District Magistrate (Collector) / Development Authority/ Municipal Authority/ Any other Competent revenue Authority as approved by the State Government. In such case, building plan of the Institute shall be approved by Government approved Architect certifying that layout plan of the ITI is accordance with the relevant standards/requirements as envisaged in National Building Code of India. |
| 1.2 | Dedicated Land and Plot Size based on Capacity of the Institute | Minimum area of the dedicated plot and land shall be Minimum area of the dedicated plot and land shall be A .ITI With 04 trades and maximum up to 12 units will be 4291.4 sqm approx. 1.07 acres. B. ITI With 06 trades and maximum up to 18 units will be 6802.4 sqm approx. 1.7 acres. C The .ITI should preferably be constructed as an integrated building or ir 2 parts separated by not more than 01 km. D.Plot and building which has registered lease should have minimum period of 10 years. In urban area where FAR/FSI limit is permitted., requiremen t of plot area may vary proportionately |

| | | In urban areas where higher Floor Area Ratio (FAR)/ Floor Space Index (FSI) limits are permitted, the requirement of plot area may vary proportionately |
|------|--|---|
| 1.3 | Ownership of the dedicated Plot and building of the Institute | Owned Plot and Building or Plot and Building which has registered live lease for minimum period of 10 years shall be allowed. |
| 1.4 | Integrated building | Area required shall be in one contiguous plot. The academic, instructional, administrative and amenities area shall be constructed on one plot |
| | | All the blocks of the institute should be constructed with in a single contiguous plot as per local building bye-laws, except hilly state regions. |
| | | Considering hilly nature of land in Hilly State regions land/plot may be made available in 02 pieces, which are not away from each other by more than 500 m. |
| 1.5 | Plot Entrance Gate | Width of plot entrance gate shall be minimum 06 meters as per the local building bye-laws/NBC of India. |
| 1.6 | Building Entrance Gate | Minimum 2.4 m width is required, as per the local building bye-laws/NBC of India. |
| 1.7 | Open Spaces around the Building | As per local building bye-laws/ As per National Building Code of India part 3- Development control rules and general building, Part 8- Open spaces (within plot), Part 8.3(b)- Other occupancies (page: 25) |
| 1.8 | Open spaces separate for each building/block | As per local building bye-laws/ As per National Building Code of India part 3- Development control rules and general building, Part 8- Open spaces (within plot), Part 8.1.2 (page: 23) |
| 1.9 | Ceiling Height of Building | As per local building bye-laws/As per National Building Code of India part 3- Development control rules and general building, Part 12-Requirements of part of building: 12.2: 12.2.1.1: (a) |
| 1.10 | Approach road to the Institute | Institute shall have proper approach road as per local building bye-laws/NBC of India. |
| 2.0 | FINISHING NORMS | |
| 2.1 | Roof of workshop | Flat/pitched RCC roof as prescribed for construction of the workshop or |
| | | Profiled Industrial roof sheets with structural supports as per design standards should be allowed. Note: i) Sheds with tin sheets/Asbestos sheets should not be allowed ii)The pre-fabricated structures will also be permitted to use for establishing/constructing the ITIs. |
| 2.2 | Plastering and Painting of Internal and External Walls and Ceiling | All the walls of built up area should be plastered and coloured / distempered. The walls of workshop made of tin sheet are not allowed |
| 2.3 | Flooring | All built-up areas of institute should be at least cemented/ tiled. Tiled flooring will be preferred in Classrooms and administrative areas and IT labs. |

| 2.4 | Painting/ Lamination of Door, Window, Ventilator, Gate, Grill, Railing of the Institute | All the doors, windows, ventilators, ga should be painted/ polished/ laminated | |
|-----|---|--|--|
| 3.0 | Institutional Area | | |
| 3.1 | Classroom | The minimum size of classroom shall of 3 m (As per existing norms). Floor s | • |
| 3.2 | Work shop area | The workshop for all trades must be remust not be less than 5 m. The existing norms prescribed at Annual Control of the contro | |
| 3.3 | IT Labs | An exclusive computer lab with interned with multimedia, anti-virus software, la The setup of the computer lab must hat workstations and peripherals with intetrade(s) or trade related computer requipments of table capacity of 100 per shift. For each additional 20 trainees of trade two computers/ workstation must be at The space norm to accommodate 10 shift is to be 25 Sq m. An additional 2 for each additional computer. Minimum width of the lab shall be 3 mi | test operating software with UPS. ave minimum ten computers / rnet facility irrespective of uirement for an ITI up to seating les/ units accredited/ affiliated, dded. computers for 100 trainees per 5 Sq m shall be made available |
| 3.4 | Drawing Hall | Drawing Hall is required for all engines 50 Sqm except Draughtsman (civil)/ D trades. This area is upto 160 trainees additional proportionate area for each Draughtsman (civil)/ Draughtsman (mon NCVT norms prescribed for respective | raughtsman (mechanical) per shift and thereafter additional trainee. For echanical) trades shall follow |
| 3.5 | Backup Power Supply | Institute should have backup power suppower supply required for all the affilial trades/units sought affiliation. Backup have proper installation with separate control panel for safe switch over. Suit provide for installation of backup power Backup power supply is the power recaddition to the main 3 phase power supply | ted trades/units and the power supply generator should arrangement of dedicated table Civil infrastructure shall er supply. Juired to run the trades in |
| 3.6 | Raw material storage Room and oil & Gas storage room | It shall be minimum area 90 Sqm for a minimum 30 Sqm for all non-engineer storage is required depending on tradeprovided. | ing trades. Wherever gas/oil |
| 4.0 | Administrative Area | | |

| 6.9 | Boards indicating Fire Fighting Equipment | Directions showing the Fire Fighting Equipment |
|-----|---|---|
| 7.0 | Desirable Requirements: | |
| | | I. Rainwater harvesting (For all the Institutes irrespective of the trainee strength) ii. Solar Energy/Power Systems iii. Announcement system in classrooms, strategic locations for general announcements and announcements in case of emergency. iv. Enterprise Resource Planning (ERP) Software for Student-Institution-Parent interaction v. ATM vi. CCTV Security System vii. LCD (or similar) projectors in class rooms |
| 7.1 | Disaster Management Plan | All the Institutes shall have disaster management plan as prescribed in the general guide lines S No. 08 & 09 |
| 7.2 | Fire Safety Certificate | Fire Safety Certificate, duly approved by Authority from Fire and Safety department of the concerned State Government/ UT |

8.0 General Guidelines:

- · ITI shall comply with all the latest NCVT norms. In case of any violation, appropriate action shall be initiated.
- Apart from affiliation norms of NCVT, ITIs shall follow all existing statutes/ provisions (related to ITIs) in that particular State/ UT. The ITIs shall also adhere to the latest notifications/ orders/ policies of Central Government/ State Government.
- Where local building bye-laws are not available, National Building Code (NBC) of India shall be applicable.
- The norms prescribed in this manual are only illustrative in nature; it has to be ensured that all safety norms shall be adhered to. It has to be ensured that overall aesthetic sense of the building/ plot is maintained.
- The civil structures shall be environment friendly and suitable for differently abled individuals. Ramp to be provided at main entrance and other places, wherever necessary as per local building bye-laws pertaining to differently abled individuals.
- Regions with diverse terrains such as hilly area, coastal area and mountain region with snowfall, respective building code norms of the state to be followed.
- The classrooms, workshops, IT labs, administrative area, amenities areas shall not be allowed in the basement or cellar. A basement or cellar is defined as one or more floors of a building that are either completely or partially below the ground floor.
- The pre-fabricated structures will also be permitted to be used for constructing/establishing the ITIs.
- The minimum width of the multipurpose hall/courtyard and work shop shall be 5 m.
- The minimum width of other rooms shall be 3 m.

Essential and Desirable Requirements/ General Guidelines in case of Various Events:

8.1. FIRE

Essential requirements:

v) All the buildings, after completion and before occupation, shall be inspected for fire and life safety measures by the Local Fire Service Authorities and a certificate to that effect shall be obtained. In the absence of such a certificate, following requirements shall be met.

Fire buckets filled with sand shall be hanged in the protected stands near workshop, laboratory, DG room, transformer and substation.

Fire point should be established in front of each building with 2 fire water buckets, 2 sand buckets and 4 fire extinguishers one of each type.

Minimum 2 numbers of extinguisher of any type should be installed at every prominent location.

Every exit, exit access or exit discharge shall be continuously maintained free of all obstructions or impediments to full use in case of fire or other emergency.

Retro reflective Signage shall be provided for escape routes at suitable height.

Evacuation drill shall be conducted for each building quarterly.

To avoid stampede and to manage any emergency properly, the Institution should have a Standing Fire Order – Document containing established procedures required to handle fire & emergency situations in which duties & responsibilities of various Authorities & Agencies are included (Sample copy enclosed).

Desirable requirements:

- b. The CCTV camera shall be provided to cover all the important areas of the campus including fire fighting system like extinguishers, hose reels, risers, automatic detection and alarm system, sprinkler system, manual call points etc.
- c. Assembly point shall be provided in a safe place with no fencing around it.

8.2. ELECTRICAL HAZARD

Essential requirements:

- Proper earthing and bonding of electrical wiring shall be ensured.
- All major equipment shall be earthed separately.
- Earth leakage circuit breaker (ELCB) shall be provided as required.

- No overhead High tension electric line shall pass across the premises.
- Sub stations or transformers if any shall be segregated. Carbon di-oxide, dry chemical powder (DCP) and Mechanical foam fire extinguishers, san buckets shall be provided.

Desirable requirements:

- All overhead electric lines shall be at a height not less than 5.4 m from the ground.
- Electrical resistant mats should be placed in front of every electric panel.
- Only trained and licensed electricians should be allowed to do work related to electric supply.
- Vertical clearance of any bare electric line passing near a building shall be minimum 2.43 m from the highest point in the building and the horizontal clearance shall be minimum 1.2 m from the closest part.
- A clear space of not less than 1 m in width shall be provided in front of the switchboard.
- If there are any attachments or bare connections at the back of the switchboard, the space (if any) behind the switchboard shall be either less than 20 cm or more than 75 cm in width, measured from the farthest outstanding part of any attachment or conductor.
- Lightning arrester shall be provided for all the buildings.

8.3 DRINKING WATER/ FOOD:

Essential requirements:

- · Clean all reservoirs on periodic basis.
- Test quality of water every three months.

Desirable requirements:

J. Test quality of samples of food prepared on campus in an independent laboratory preferably once in six months.

8.4 WORKSHOP ACCIDENT

Essential requirements:

- j. Personal protective equipment shall be available for each one entering the workshop.
- k. Instructions for workshop safety must be displayed inside and outside the workshop.
- I. First-aid kit shall be maintained.
- m. Safety precaution for operation for each machine should be affixed with it.
- n. Standard Operating Procedure (S.O.P.) for all the equipment and system must be prepared and properly displayed near the respective machine.
- o. All the electrically operated machinery should be properly earthed and bonded.
- p. Emergency contact numbers shall be displayed for contacting in case of any emergency which should include Safety Officer, fire control room, medical assistance, Security assistance, Head of the concerned department, maintenance services.
- q. Instructions regarding the procedure to be followed in case of an emergency occurring in the building outside the workshop during the running of workshop shall be displayed inside and outside the workshop in the form of Do's and Don'ts.

Desirable requirements:

- 2. While installing or keeping machines and tool, racks aisles and gangways should be provided.
- 3. There should be Schedule for standard test for machines and tools.
- 4. Workshop floor should be made by non-skid and non-static floor tiles.

- D. Place for disposal of materials should be properly marked.
- E. Housekeeping shall be done as per proper Schedule.
- F. Various fuels used in workshop shall be stored in minimum quantity according to requirement.
- G. Proper ventilation facilities shall be provided to prevent dust accumulation.

8.5 EMERGENCY SITUATION - PHYSICALLY CHALLENGED

Essential requirements:

YYYY Ramp shall be provided for the disabled for easy access to and evacuation from the building.

ZZZZ Sufficient wheel chairs and stretchers shall be available for use in emergency

Desirable requirements:

- d. Information regarding the number of physically challenged people in the campus should be available with the Safety Officer.
- e. The time and the number of physically challenged persons among the visitors shall be recorded at security gate.

8.6 STRUCTURAL FAILURE OF BUILDING

General Guidelines:

- 6. Emergency evacuation procedure with evacuation plan shall be kept ready.
- 7. Provisions shall be made to cut off water, electricity, and LPG connections safely from outside the building.
- 8. Structural audit of buildings shall be done periodically.

STAMPEDE

Guidelines to be followed:

- 7. Proper signage for traffic control route shall be displayed.
- 8. Public Address system shall be implemented to communicate and to direct.
- 9. Power back up for extra illumination of exit routes shall be available.
- 10. It is necessary to do planning and practicing mannerly and orderly evacuation and maintaining records.
- 11. Student volunteers need to be trained for proper evacuation
- 12. Ensure that no more than 4 persons / Sq m shall assemble in all assembly areas.
- 13. Temporary barriers shall be provided to use in emergency to restrict and to control traffic.

8.7 EARTHQUAKE

General Guidelines:

- 2. Construction of building shall be as per relevant Indian Standards and Codes of practice. Already constructed structures if already not designed to satisfy earthquake resistance, shall be strengthened as per relevant Indian Standards and Codes of practice.
- 3. Proper evacuation plan based on the Standing Fire Order shall be maintained and it should cover all the possible emergencies.
- 4. Evacuation drill/ Exit drill shall be conducted quarterly and such records shall be maintained (Different groups, members, date of conduct, observations).
- 5. Training should be given to all members of the evacuation teams to perform their duties and records shall be maintained.

- ☐ The most suitable and safest place shall be selected as safe assembly point for each building.
- □ Large or heavy items if any shall be placed closest to the ground.
- Hang large items such as framed pictures, large mirrors etc. away from sitting place, bed and protected escape routes.
- □ Brace overhead light fittings properly.
- An inventory for the details of heavy duty equipment and necessary tools with the details and contact numbers of owner and operator shall be maintained for ready reference.
- □ Avoid glass panelling for buildings. However if provided, shall be protected with metal screens.

8.8 CYCLONE

General Guidelines:

- b Keep in contact with the concerned authorities before the cyclone season each time for warning and precautionary measures.
- c List of emergency phone numbers shall be displayed.
- d Training should be given to all members of the response teams to perform their duties, and records shall be maintained.
- e Provision shall be made to strongly secure all doors, windows and other openings, if any, in closed position.
- f Emergency kits containing portable battery radios, torch lights, spare batteries, water container, dry fruits, match boxes, fuel lamps, portable stove, cooking utensil, etc. shall be maintained in cyclone prone areas.
- g Low frequency communication devices shall be in place.
- h Avoid glass panelling for buildings. However, if provided, shall be protected with metal screens.
- i Construction of buildings shall be strong enough to resist collapse during wind.
- j Long and continuous structures shall be avoided so as to reduce the effect of wind.
- k Deep rooted plants which can resist wind can be planted around but outside the boundary wall to reduce the wind velocity.
- No tall plants shall be there in the compound, especially near any building.

8.9 FLOOD:

General Guidelines:

- 11. Provision for the storage of drinking water at the rate of 4.5 litres/ 1 Day / person for the total occupants for a minimum of 3 days during impending flood shall be made.
- 12. Provision for storage of non-perishable easy to prepare food for 3 days' supply during impending flood shall be made.
- 13. Flash light for signal (Red cross store) shall be arranged.
- 14. Portable battery Radios (if possible NOAA National Oceanic and Atmospheric Administration type) shall be arranged.
- 15. Flood rescue equipment like lifeboat, life jacket, and portable boats with oar and out board engine, rope shall be stored and ready for use.
- 16. Occupational Health centre shall be maintained.
- 17. Paramedical Team shall be available and trained.
- 18. Provision should be made on top floors of the buildings for shelter in case of flood.
- 19. Insect repellents and sunscreen shall be stored.

LAND SLIDE

General Guidelines:

- 5. Construct Retaining walls wherever necessary to prevent erosion.
- 6. Train permanent staff to identify the symptoms of landslide.
- 7. Avoid buildings in steep slope or along natural erosion valleys.

9.0 STANDARD FIRE SAFETY NORMS

(To be displayed at all the floors at suitable visible places with all emergency contact numbers)

9.1 Responsible authorities

- 4. The person who detects the Fire
- 5. Safety Officer
- 6. Maintenance Section

9.2 Detects the fire

b Immediately inform the Safety officer and Head of the section/division

9.3 Responsibilities of safety officer:

On receipt of information:

- d. He / She shall immediately proceed to the scene of incident and assess the situation.
- e. If considered necessary, He/ She shall raise fire alarm for His/ Her zone, and notify the incident to Fire department and the listed emergency services, officer shall have confirmed this action later.
- f. If necessary, he/she shall direct the Maintenance section to salvage the records and materials from the area.
- g. If considered necessary, He/ She shall evacuate His/ Her zone and/or neighbouring zones.
- $h. \quad \text{At the earliest opportunity He/ She shall inform the incident to the Departmental head.} \\$

Duties of maintenance section members:

On receipt of call for emergency in their own zone, all the members of Maintenance section:

- 2. Shall immediately proceed to the place of incident and report to their Duty Officer.
- 3. Shall strictly follow the instructions of Safety Officer and work under him/ her as per his/ her directions.
- 4. Shall, as per the instructions from Duty Officer/Fire Officer, switch off electrical supply to the affected area.
- 5. Shall see that electric supply is restored only on instructions from the Duty Officer/Fire Officer.
- 6. Close the air condition system at the affected area.
- 7. Shall ensure that booster pump located in the building is switched on.
- 8. Shall ensure that all the Hydrants in and around the Building are charged with sufficient pressure.

Duties of other staff from the affected zone/zones:

On hearing the Emergency Alarm, all the other members of staff:

- b Are requested not to panic, but to remain calm and follow instructions of the Safety Officer in an orderly and disciplined manner.
- c If directed to evacuate, shall ensure that all the electric lights at their workplace are switched off and that all the windows and doors of their area are properly closed before leaving the place.
- d During evacuation, shall proceed in an orderly manner to the ground floor by the nearest available staircase/emergency exit.
- e Shall not use the lifts.
- f Shall see that, persons assigned with specific duties in an emergency are not disturbed or obstruct their work.

WORKSHOP NORMS

The list of latest required power norms & space norms is available on website.

Norms for Engineering and Non-Engineering Trades

Engineering Trades

| S No. | Name of the Trade | Unit Size | Space Norms for Workshop per unit (Sq M) | Space Norms for Classroom (Sq M) | Power Supply Load (KW) 3-Phase, Commercial |

Existing Space Requirement of ITIs forWorkshop & Classroom under

Craftsmen Training Scheme

1.1 Space Requirement in ITIs (Workshop Building): The details of space requirement and electrical connected load for the trades is given in Annexure 2.M

1.2 Space Norms for Workshop for ITIs:

- f. It has been approved by the NCVT Sub-Committee that the workshop for all trades must be rectangular in shape and width must not be less than 05 meter.
- g. The walls of workshop made of tin sheet are not allowed.
- h. The minimum height of workshop must be 10 feet (3.048 meter) for RCC roof and 12 feet (3.65 meter) for Industrial roof shed from lower end.
- i. All built- up areas of Institute should be at least cemented/ tiled as prescribed.
- j. Keeping in view the escalating cost of land and non-availability of required land in urban areas, metropolitan and other cities, the National Council for Vocational Training (NCVT) deliberated and approved vertical expansion, with multi-storied design for workshop with a condition that trades with heavy machineries to be housed only in the ground floor and remaining trades may be housed at any floor.
- k. Further, before housing any trade involving machineries at any floor other than ground floor, a certificate regarding safety/suitability of structure to house that trade from Government Civil/Structural Engineer would be necessary.
- It was also approved that as per building bye-laws, for building having more than three floors, the provision of lift would be
 mandatory. It is also recommended by NCVT that following trades requiring heavy machinery must be accommodated on ground
 floor. However, on the basis of the certificate by competent government authority/ Government structural engineer these trades
 can be allowed on the higher floors.
 - 1 Welder,
 - 2 Foundry man,
 - 3 Mechanic Tractor,
 - 4 Mechanic Diesel,
 - 5 Mechanic Motor Vehicle,
 - 6 Fitter,
 - 7 Turner,
 - 8 Machinist,
 - 9 Sheet Metal Worker,
 - 10 Carpenter,
 - 11 Machinist Grinder,
 - 12 Tool and Die Maker,
 - 13 Building Constructor (Mason) &
 - 14 Any other having single machinery weighing more than 200 kg
- m. Building plan shall be approved by Town Planning Department/ District Magistrate (Collector)/ Development Authority / Municipal Authority/ Any other Competent Authority as per State government / UT.

General Guidelines

Chapter -3

EQUIPMENT GENERAL STANDARDS/ NORMS FOR ITIS

General Guidelines

- g. All equipment/machinery shall have certification of BIS/ISO/DIN or equivalent quality standards.
- h. The standard machinery, equipment and tools list available in the syllabus of each trade and as listed on the DGT website under the icon 'Craftsmen Training Scheme' (link: http://dget.nic.in/content/innerpage/new-and-revised-trade.php)
- i. Equipment/Machinery shall be installed as per standard instructions given by the manufacturers.
- j. Machinery and equipment are connected as per electrical safety standards.
- k. Ensure Working condition of Machinery, Equipment.
- 1. Machinery and equipment are connected as per Indian standard code of practicing for electrical wiring.
- m. Only new machinery/equipment/ vehicle in running condition is acceptable for granting accreditation& affiliation. No old machinery, equipment and tools are acceptable for any new trade/ unit. All the tax invoices of machinery, equipment and tools shall not be older than 6 months from the date of application.
- n. The items which are not included in the standard list but are essential for training due to technological development may be procured by the institute.
- o. Details of equipment standards are clearly mentioned in Stage -3 of affiliation procedure in page no 24.
